

Public Health BA*
2019-2020 Student Learning Outcomes

Outcome		Assessment Methods
1	<i>Public Health students will demonstrate the ability to explain a public health theory and apply that theory to a contemporary problem in public health planning.</i>	<i>Essay question on a midterm exam</i>
2	<i>Public Health students will be able to identify and analyze the ways that mediated health messages reflect the contexts of race, gender, class, ethnicity, and sexuality.</i>	<i>Essay question on a midterm exam</i>
3	<i>In keeping with our mission to prepare students for a wide variety of post-graduation experiences, students engaging in internships for their capstone community service experiences should be perceived to be prepared for their internships by their site supervisors.</i>	<i>Internship evaluations completed by site supervisor</i>
