COLLEGE OF CHARLESTON CALENDAR FOR 1971-72

JUNE

- 7, Monday First Summer Session begins
26, Saturday Classes held

JULY

- 5, Monday Independence Day — Holiday
9, Friday First Summer Session ends
12, Monday Second Summer Session begins

AUGUST

- 13, Friday End of Second Summer Session
26, Thursday Dormitories open at 9:00 a.m. New student
orientation begins
30, Monday Registration for First Semester

SEPTEMBER

- 1, Wednesday Classes begin
6, Monday Labor Day Vacation
9, Thursday Last day for late registration
Last day for changing schedules
No student admitted to the first semester after this
date

OCTOBER

- 14, Thursday Last day to drop a course without penalty of a grade
of "WF."
20, Wednesday Last day for reporting mid-semester grades

NOVEMBER

- 12, Friday Annual Pep Supper
25, Thursday Thanksgiving Recess — No classes
26, Friday Thanksgiving Recess — No classes
29, Monday Classes resume at 8:00 a.m.

DECEMBER

- 13, Monday First Semester Examinations begin at 9:00 a.m.
21, Tuesday First Semester Examinations end, and end of First
Semester

JANUARY

- 10, Monday Opening of Second Semester. Registration begins at 9:00 a.m.
- 12, Wednesday Classes begin for Second Semester
- 19, Wednesday Last day for late registration
Last day for changing schedule
No student admitted to the Second Semester after this day

FEBRUARY

- 24, Thursday Last day to drop a course without penalty of a grade of "WF."

MARCH

- 1, Wednesday Last day for reporting mid-semester grades
- 10, Friday Spring Recess begins (5:30 p.m.)
- 19, Sunday Founder's Day
- 20, Monday End of Spring Recess, classes resume
- 31, Friday Good Friday — Holiday

MAY

- 3, Wednesday Second Semester Examinations begin
- 11, Thursday Second Semester Examinations end
- 16, Tuesday Commencement — Graduation exercises

JUNE

- 5, Monday Beginning of First Summer Session
- 24, Saturday Classes held

- 4, Tuesday Independence Day — Holiday
- 7, Friday End of First Summer Session
- 10, Monday Second Summer Session begins

AUGUST

- 11, Friday End of Second Summer Session

**PRESIDENTS OF THE
COLLEGE OF CHARLESTON
1790 - 1971**

Robert Smith, 1790-1797
Thomas Bee, Jr., 1798-1805
George Buist, 1806-1808
Elijah Dunham Rattoone, 1810
Nathaniel Bowen, 1823-1824
Jasper Adams, 1825-1826
William Theophilus Brantly, 1838-1844
William Peronneau Finley, 1845-1857
Nathaniel Russell Middleton, 1857-1880
Henry Elliott Shepherd, 1882-1897
Harrison Randolph, 1897-1945
George Daniel Grice, 1945-1966
Walter Raleigh Coppedge, 1966-1968
Theodore Sanders Stern, 1968-

THE COLLEGE OF CHARLESTON

1770 - 1971

Although the College of Charleston began its corporate existence March 19, 1785, with the passage of an act by the General Assembly of South Carolina, colonial aspirations for higher education extended into the early eighteenth century. The College had in fact been founded fifteen years earlier, in 1770, when the first contribution was made to the endowment. As early as 1707 portions of land had been set aside for a college or university; and in 1723, the master of a free school in Charles Town wrote to his superior in England advocating the establishment of a college. A plan brought forward in 1748 eventually resulted in the South Carolina Act of 1785 enabling in turn the development of higher education in the state.

It was in this year that the newly-founded Charles Town Library Society became the cultural center for the province. Not a library in an ordinary sense, the association brought together members for frequent and stimulating sessions. Prominent among those calling upon the government of South Carolina to establish a provincial college in Charleston were outstanding members of the Charles Town Library Society. Activities of this group in support of higher education justify the College's recognizing the Library Society, to this day still active in the community's cultural life, as a silent force in the determined effort to provide higher education in South Carolina.

Classes at the newly established College of Charleston began July 3, 1785, in the home of the president of the College, Dr. Robert Smith, who, while still serving as president of the College, was made the first Episcopal Bishop of South Carolina. (The Bishop Smith House, carefully restored in 1965, is once again the home of the College presidents.) Five years after the opening, the Trustees announced on October 11, 1790, that classes had begun in Main Building on the campus. Four years later, in 1794, the first degrees were conferred.

Despite the initial promise, mounting debts and diminishing enrollments brought into question the College's continuation as an active educational institution. Belief in

the possibilities of the institution never disappeared, and by 1817 debts had been cleared; by 1825 important internal reorganizations had been effected; and by 1828 the old buildings had been replaced by a handsome Greek revival structure.

Events taking place in the mid-1820's enabled the College of Charleston to lay claim to being the first municipal college in the United States. The first financial aid was received from the City of Charleston during this period when, as early as 1826, an appropriation by the City Council established the principle of municipal patronage and gave the College the status of a municipal institution. Legal confirmation of the arrangement came in 1837 when an amendment to the charter enabled the Trustees to transfer the College properties to the city, and the city, for its part, engaged to provide annual financial support.

Considering the disruption which war brought to all phases of Southern life after 1860, it is remarkable that the College suffered so little. Classes were discontinued for a time, and faculty, students, and even the library were scattered. But the tradition survived, and the College, when it reopened in February, 1866, was able to resume its activities almost as if they had not been interrupted.

The new era brought both new difficulties and new strength. A sharp drop in enrollment during the Reconstruction period caused financial strains of such magnitude that dissolution threatened upon occasion. The Main Building was heavily damaged in the earthquake of 1886, taxing further the financial resources of the College. On the other hand, the period from 1866 to the present was marked by a steady expansion of the curriculum and by an equally steady rise in scholastic standards.

The College of Charleston became a coeducational institution in 1918. Without greatly increasing its size, the College of Charleston thus doubled the opportunities for students of the community to secure a college education. Recognizing this increased potential, the County of Charleston began to contribute annual appropriations, and the College thereafter became a county as well as a municipal institution. Through an act of the General Assembly of South Carolina the original charter of 1785 was in effect restored when the College of Charleston returned to its private status on April 28, 1949.

A listing of events and dates alone in the history of the College does not present the character of the institution which has attracted the interest and talents of men of undisputed eminence in their fields. The Board of Trustees has included such men as John Rutledge, Chief Justice of the United States; Charles Fraser, artist; Gabriel Manigault, architect; Joel Poinsett, horticulturist and diplomat; Robert Y. Hayne, statesman; Dr. David Ramsey, historian of Colonial and Revolutionary South Carolina, and M. Rutledge Rivers. For fifty-four years Lewis R. Gibbes carried on his research in biology, astronomy, and chemistry as professor of natural history on the College faculty. John Bachman, the naturalist, and Francis S. Holmes, who organized and augmented the collections of the Charleston Museum, were members of the faculty. The fine scholarship of Nathaniel Wright Stephenson in history, of Thomas della Torre in the classics, and of Lancelot Minor Harris in English literature and philology was contemporaneous with their work as teachers in the College.

Among its alumni, the College of Charleston lists men of letters such as Edward McCrady, James De Bow, Paul Hamilton Hayne, and Ludwig Lewisohn. Other alumni well-known in public life have been Frank Blair, network news commentator; the late Congressman L. Mendel Rivers, Chairman of the Armed Services Committee; Joseph Earl Jacobs, ambassador; Paul Ehrman Scherer, prominent theologian; Josephine Lyons Scott Pinckney, authoress; Burnet Rhett Maybank, Mayor of Charleston, Governor of South Carolina, and United States Senator from South Carolina; John Charles Fremont, explorer and candidate for the presidency; Herbert Ravenel Sass, author; William Steen Gaud, Executive Vice President, International Finance Corporation; and Dr. Webb Edward Haymaker, senior scientist and Director, Life Sciences, NASA, and neuropathologist with the Armed Forces.

And from the educational standards, often far in advance of their times, of such presidents as George Buist, Jasper Adams, William Peronneau Finley, Nathaniel R. Middleton, and Harrison Randolph, the College derives whatever excellence it has achieved in the purposes for which it was founded and to which it remains dedicated.

The first gift to the College's endowment fund in 1770 was that of Benjamin Smith; five similar gifts during the next ten years considerably augmented the funds. Major

bequests since that time have been those of Ephraim M. Baynard (1864), Thomas W. Malone (1888), Andrew B. Murray (1927), Lancelot M. Harris (1948), Mrs. Daisy C. Pettus (1948), Mrs. Isabel M. Doud (1948), S. Douglas Craig (1960), and Richard H. Jenrette (1970-71). A portion of the endowment is devoted to student aid in the form of scholarships and loan funds.

On July 1, 1970, the College of Charleston became an integral part of the Higher Education System of the State of South Carolina. On that date the Board of Trustees of the College transferred the College to the State College Board of Trustees.

This affiliation will permit the College to expand and provide new course offerings, to better serve the student, the community and the state.

New facilities including a Library, Science Center, Classroom Building, and additional dormitory facilities and faculty housing are planned for the immediate future.

The College of Charleston is a member of the Southern Association of Colleges and Schools, of the Association of American Colleges, and of the American Council on Education. It is a charter member of the Southern University Conference, and is on the approved list of the Association of American Universities and of the American Association of University Women. Its accreditation was reaffirmed in 1965.

The College of Charleston is an equal opportunity institution.

THE BOARD OF TRUSTEES

The Board of Trustees of the College of Charleston is composed of sixteen members, appointed by the Governor of the State of South Carolina with the advice and consent of the South Carolina Senate. One member represents each of the sixteen judicial districts of the State.

Board of Trustees

James A. Rogers, Chairman
F. Mitchell Johnson, Vice Chairman
John M. Trask, Jr., Secretary

Term Expiring June 30, 1971

Edward T. Jones	Orangeburg, S. C.	1st Judicial Circuit
Richard P. Moses	Sumter, S. C.	3rd Judicial Circuit
Joe E. Berry, Jr.	Columbia, S. C.	5th Judicial Circuit
Ellen Carter Watson	Spartanburg, S. C.	7th Judicial Circuit
F. Mitchell Johnson	Charleston, S. C.	9th Judicial Circuit
John Kermit Addy	Lexington, S. C.	11th Judicial Circuit
D. Walter Green, Jr.	Conway, S. C.	15th Judicial Circuit

Term Expiring June 30, 1973

C. Calhoun Lemon	Barnwell, S. C.	2nd Judicial Circuit
Allard A. Allston	Darlington, S. C.	4th Judicial Circuit
Fitz-John Creighton McMaster	Winsboro, S. C.	6th Judicial Circuit
Caroline Beaver	Greenwood, S. C.	8th Judicial Circuit
Sara V. Liverance	Anderson, S. C.	10th Judicial Circuit
James A. Rogers	Florence, S. C.	12th Judicial Circuit
John M. Trask, Jr.	Beaufort, S. C.	14th Judicial Circuit
Eleanora R. Richardson	Union, S. C.	16th Judicial Circuit

INSTITUTIONAL RESEARCH

Vernon G. Rivers *Vice President for Institutional Research*

THE FACULTY

1970-1971

- Myron James Edward Abbott, M.A. (1969) *Assistant Professor of Philosophy*
A.B., Louisiana College; B.D., New Orleans Baptist Theological Seminary; M.A., further study, Vanderbilt University
- Robert Waller Achurch, Ph.D., (1970) *Professor of English*
B.A., College of Charleston; M.A., Ph.D., University of North Carolina
- Hunter Holmes Alexander, Ph.D. (1970) *Assistant Professor of History*
A.B., Harvard University; M.A., The Johns Hopkins University; Ph.D., Georgetown University
- James Philip Anderson, M.S. (1957) *Assistant Professor of Mathematics*
B.S., College of Charleston; M.S., University of South Carolina
- William D. Anderson, Jr., Ph.D. (1969) *Associate Professor of Biology*
B.S., M.S., Ph.D., University of South Carolina
- William Bischoff, M.A. (1955) *Associate Professor of Psychology*
B.S., College of Charleston; B.D., Philadelphia Lutheran Seminary; M.A., University of South Carolina
- William Clark Bradford, Jr., Ph.D. (1970) *Assistant Professor of English*
A.B., Colby College; M.A., Ph.D., Duke University
- Lorin Wayne Browning, Ph.D. (1970) *Assistant Professor of Philosophy*
B.A., Louisiana College; M.A., Louisiana State University; further study, Michigan State University
- Norman Allison Chamberlain, III, Ph.D. (1962) *Professor of Biology and Director and Resident Biologist, George D. Grice Marine Biological Laboratory*
B.A., University of North Carolina; M.A., Ph.D., The Johns Hopkins University
- Malcolm Cameron Clark, Ph.D. (1966) *Assistant Professor of History*
B.A., M.A., George Washington University; Ph.D., Georgetown University
- William Mellard Connor, M.A. (1967) *Assistant Professor of German*
B.S., United States Military Academy; B.A., M.A., Oxford University; Brigadier General, USA, (ret.)
- Vernon Cook, Ph.D. (1961) *Professor of German and Russian*
B.A., Ph.D., University of Virginia
- Donald Maurice Drost, Ph.D. (1970) *Assistant Professor of Physics and Mathematics*
B.S., M.S., Ph.D., Louisiana State University
- William A. Evans, D.B.A. (1969) *Associate Professor of Business Administration*
B.S. in Management, M.B.A., West Virginia University; D.B.A., Georgia State College
- Garv Conrad Faber, Ph.D. (1970) *Assistant Professor of Chemistry*
B.S., Georgia State College; Ph.D., University of South Dakota

- James Randolph Fitzgerald, M.A. (1969) *Assistant Professor of English*
A.B., M.A., University of Richmond; further study, University of Georgia
- Sister M. Anne Francis, Ph.D. (1967) *Assistant Professor of History*
B.S., Fordham University; M.A., College of the City of New York; Ph.D., St. Louis University
- Harry Wyman Freeman, Ph.D. (1960) *Professor of Biology*
B.S., College of Charleston; M.S., University of South Carolina; Ph.D., Stanford University
- Gerald Wray Gibson, Ph.D. (1965) *Associate Professor of Chemistry*
B.A., Wofford College; Ph.D., University of Tennessee
- James William Hagy, Ph.D. (1969) *Associate Professor of History*
A.B., King College; M.A., East Tennessee State University; Ph.D., University of Georgia
- John Andrew Hamilton, Ph.D. (1970) *Professor of French*
A.B., M.A., University of South Carolina; M.A., Harvard University; Ph.D., Harvard University
- Joseph Morgan Harrison, M.A. (1970) *Assistant Professor of English*
B.S., University of the South; M.A., further study, University of Virginia
- Julian Ravenel Harrison, III, Ph.D. (1963) *Associate Professor of Biology*
B.S., College of Charleston; A.M., Duke University; Ph.D., University of Notre Dame
- William Hugh Haynsworth, Ph.D. (1970) *Assistant Professor of Mathematics*
B.A., University of South Florida; M.S., Ph.D., University of Miami
- George Gyorgy Heltai, Dr. Rer. Pol. (1967) *Professor of History*
State Exam (M.A.) Royal Protestant Academy of Law; Dr. Jur., Dr. Rer. Pol., University of Budapest
- Harlin Wayne Hogan, M.A. (1970) *Assistant Professor of Sociology*
B.A., Central State College, Oklahoma; M.A., University of Tennessee; further study, Tulane University
- James Holladay, Jr., Ed.D. (1967) *Associate Professor of Education*
B.S., M.A., Ed.D., University of Alabama; further study, University of Virginia
- Diane Chalmers Johnson, Ph.D. (1970) *Assistant Professor of Art History*
B.A., Radcliffe College, Harvard University; M.A., Ph.D., Kansas University
- Laylon Wayne Jordan, M.A. (1970) *Assistant Professor of History*
B.A., Old Dominion College; M.A., College of William and Mary; further study, University of Virginia
- Eric Ronald Kirkland, M.S. (1968) *Assistant Professor of Physics*
B.S., Florida Southern University; M.S., University of Miami
- Earl Oliver Kline, Ph.D. (1970) *Professor of Political Science*
A.B., College of William and Mary; M.A., Vanderbilt University; M.A., Ph.D., Princeton University

- Carl James Likes, Ph.D. (1958) *Professor of Chemistry*
B.S., College of Charleston; Ph.D., University of Virginia
- Lucia Francina Hamilton Mansfield, M.A. (1969) *Assistant Professor of Modern Languages*
A.B., Birmingham-Southern College; M.A., State University of Iowa
- Gilbert Paul Mathieu, M.S. (1970) *Assistant Professor of Business Administration*
B.S., M.S., University of California at Davis; further study, North Carolina State University
- Anthony Joseph Meyer, M.A. (1955) *Director of Athletics and Assistant Professor of Physical Education*
B.S., College of Charleston; M.A., Appalachian State University
- Henry Miller, Jr., Ph.D. (1947) *Professor of French*
B.A., Furman University; M.A., University of Virginia; Ph.D., Columbia University
- Nan Dansby Morrison, Ph.D. (1967) *Assistant Professor of English*
B.A., Troy State College; M.A., Ph.D., University of South Carolina
- Thomas Alfred Palmer, Ph.D. (1970) *Associate Professor of Political Science*
B.A., The College of William and Mary; M.A., The American University; Ph.D., University of South Carolina
- Donald Richard Peeples, M.S. (1969) *Assistant Professor of Mathematics*
B.S., M.S., further study, Florida State University
- Maggie Thurman Pennington, Ph.D. (1963) *Professor of Biology*
B.S., Radford College; Ph.D., University of Virginia
- James Vaiden Robinson, Jr., Ph.D. (1970) *Associate Professor of Psychology*
B.S., University of Southern Mississippi; M.A., Ph.D., University of Mississippi
- Roy Thomas Sawyer, Ph.D. (1970) *Assistant Professor of Biology*
B.S., Wofford College; M.S., University of Michigan; Ph.D., University of Wales
- Warren Allen Sawyer, M.S. (1970) *Head Librarian*
B.S., Hampden-Sydney College; M.S., University of North Carolina
- Fran Lloyd Sherwood, M.B.A. (1969) *Assistant Professor of Business Administration and Economics*
B.S., M.B.A., The University of South Carolina
- Simeon Mozart Smith, Jr., Ph.D. (1969) *Assistant Professor of English*

ADMISSION

Students are admitted to the College of Charleston by an evaluation of their secondary school achievement, their scores on the Scholastic Aptitude Test of the College Entrance Examination Board, and the recommendation of their school. The credentials of each applicant are carefully evaluated and the selection of students is made on the basis of those judged most likely to succeed academically at the College of Charleston. Students applying for transfer from another college or university are judged primarily on their college record.

To be eligible for consideration, the sixteen units of high school work required for admission must include twelve (12) academic or college preparatory units. It is recommended, but not required, that the twelve academic or college preparatory units include four of English, three of mathematics, and at least two units of one foreign language, either modern or classical.

The Advanced Placement program of the College Entrance Examination Board is accepted at the College. Having taken college-level courses in secondary school and having performed well on Advanced Placement Examinations, the candidate may be granted advanced placement and college credit in some instances.

All applicants for admission to the College as Freshmen are required to take the Scholastic Aptitude Test. The applicant makes arrangements to take these tests through his high school principal or guidance counselor, or by writing directly to the College Entrance Examination Board, Box 592, Princeton, New Jersey 08540. In reply, the College Entrance Examination Board will send the necessary application forms and its bulletin containing information on the general nature of the tests, the dates on which the tests are given, the centers where they may be taken, and the fees required. The applicant must request that the results of the tests be sent to the College of Charleston. Generally speaking, about four weeks are required for the scores to reach the College Admissions Office, and the Admissions Committee can make no decision until it has received them. The applicant should keep these facts in mind when he is selecting a date on which to take the tests.

Admission with Credit by College Level Examination Program

The College will accept for credit and placement the following list of CLEP examinations:

Economics	English Composition
Calculus	General Psychology
Chemistry	Geology
Analysis of Literature	Money and Banking
American Government	Sociology
Western Civilization	Statistics

1. The passing grade for each examination will be determined by the department concerned.
2. The department concerned, after evaluating the essay examination, may require that the student satisfactorily complete two semesters of advanced work in the department before CLEP credit is granted.
3. When credit is given, the transcript will show that credit comes from CLEP examination.
4. No student may be granted more than 32 semester hours by CLEP examination.

The General Examinations and the Subject Examination, "Tests and Measurements," may not be taken for credit.

Application for Admission

All correspondence concerning admission to the College of Charleston should be addressed to the Director of Admissions, College of Charleston, 66 George Street, Charleston, South Carolina 29401.

The high school graduate who wishes to enter the College as a first-year student should write to the Director of Admissions requesting the necessary application forms. He will receive from the Admissions Office two forms—an *Application for Admission* form and a *Transcript and Recommendation* form. The first of these the applicant will himself fill out, sign and return to the Admissions Office, together with the Application Processing Fee of ten dollars (\$10.00). The *Transcript and Recommendation* form is to be placed in the hands of the principal or guidance counselor of the high school which the applicant last attended; the principal or guidance counselor will complete the form and send it directly to the Director of Admissions.

The high school student may submit his application at any time after the beginning of his senior year.

The College of Charleston is an equal opportunity institution.

Application Fee

An application fee of \$10.00 must accompany the applications of those seeking admission either as high school graduates or as transfer students from other colleges and universities. The application fee covers the cost of processing the application and is not refundable.

Admission by Transfer

Students who wish to transfer to the College of Charleston after having been in attendance at another college or university must provide the Office of Admissions with an official transcript of the work completed at the institution last attended, evidence of secondary school units earned, and a statement of academic eligibility to return to the institution from which he seeks to transfer. The Director of Admissions may also require, in certain cases, that the applicant present scores on the tests given by the College Entrance Examination Board.

The transcript of the applicant seeking admission by transfer is evaluated in accordance with the regulations set forth below and the acceptance of transfer credits as valid toward a College of Charleston degree will be governed by these regulations.

Credit is normally allowed for recognized liberal arts subjects taken in an institution which has been accorded accreditation by the Southern Association of Colleges and Schools or by a regional accrediting body of similar rank. Credit may be allowed provisionally when the applicant has attended an unaccredited institution, with ultimate validation being contingent upon the demonstration of satisfactory performance at the College of Charleston in subjects in continuation of or at advanced levels of the work taken at the institution previously attended. Courses taken more than seven years prior to the expected date of enrollment in the College of Charleston will be reviewed by the Faculty Curriculum Committee. The acceptance of credits for such courses can be granted only with the approval of the Committee, and will be subject to such conditions as the committee may stipulate.

In any case, credit can be granted only for work in which the recorded grade is at least "C" or at least one full letter grade higher than the lowest passing grade awarded by the institution at which the work was taken.

Admission to Advanced Standing

Class standing (that is, rank as sophomore, junior, or senior, as the case may be) is determined by the number and quality of credits accepted for transfer. In any event, the maximum number of credits acceptable by transfer toward a College of Charleston degree is 92 semester hours. The senior year of work for the degree must be done in residence at the College of Charleston.

These regulations do not apply to candidates for the degree of Bachelor of Science with Medicine and the degree of Bachelor of Science with Medical Technology. These are specialized degrees of the College, and require that all of the work for these degrees be done in residence at the College of Charleston. The transfer student is not eligible for either of these degrees.

Advance Tuition Deposit

New applicants will be notified in their letter of acceptance of the date on which the Advance Tuition Deposit of \$50.00 is due. This amount will be refunded should the new student indicate before May 1 that he will not enroll at The College. All returning students must deposit with the Business Office an Advance Tuition Deposit of \$50.00 by April 1. This amount will be refunded should the returning student indicate before June 1 that he will not enroll at the College. This deposit by new and returning students will be credited to the regular fees of the student who is accepted for admission and enrolls at the College.

Room Reservation Deposit

All new students will be notified in the acceptance letter concerning payment of the required \$100 Advance Room Deposit. Returning students must pay the Advance Room Deposit by April 1.

Special Students

The Special Student is a mature person who gives evidence of fitness to take a selected course of studies and who may, while not seeking a degree, under certain circumstances, be admitted without fulfilling regular enrollment requirements. The special student may be enrolled in any courses which he is academically prepared to undertake.

Should the special student decide to become a candidate for a degree, he must meet the full requirements and make application for regular admission to the College with the Office of Admissions.

Registration and Enrollment

All students, whether they are entering the College for the first time or were enrolled in a previous session, must register at the beginning of each semester. The dates of registration for each semester are listed in the College Calendar, as are the days for each semester past which a course may not be dropped except with penalty. A fee of \$10.00 is assessed for late registration.

Physical Examination

All students accepted for admission must submit a satisfactory Health and Immunization Record.

Visits to the College

The College encourages high school and college students to visit the campus. A definite appointment, while not required, is helpful in making the visit more beneficial to the student. Appointments should be made through the Office of Admissions.

FEES AND EXPENSES

As a state supported institution, tuition and fees are dependent upon appropriations granted by the South Carolina General Assembly. Accordingly, the fees charged by the College of Charleston will be directly affected by the action of the legislature and are therefore subject to change without notice.

All fees are due and payable in full before or during the official registration days (unless specific arrangements have been made with the Business Office prior to registration). Checks for the exact amount of charges should be made payable to the College of Charleston. A tuition and fees deposit of \$50.00 is due by April 1 for all returning students.

The following fees apply to each semester:

	<i>Resident</i>	<i>Non-Resident</i>
Full Time Students (9 hrs. or more)		
College Fees	\$225.00	\$450.00
Tuition Fee (for Institution Bond debt service)	75.00	200.00
Plant Improvement Fee	50.00	50.00
	\$350.00	\$700.00
Part Time Students		
Course Fee (per semester hr.)	\$ 20.00	\$ 20.00
Course Auditing Fee		
Non-credit-requires approval of Professor, Dean and Director of Admissions and Registration		
Full Time Student	No Charge	
Part Time Student (per course)	\$ 25.00	
Student taking no credit hrs. (per course)	50.00	

Note: For students needing financial assistance see the section "Scholarships and Loan Funds".

Resident—A student shall be considered a resident of the state of South Carolina if his parents or persons acting in a bona fide in loco parentis status are legal residents of the state in accordance with legislation of the General Assembly of the State of South Carolina.

Advance Room Deposit:

Down Payment due in advance
(due by April 1) \$100.00

Half of the down payment is applicable to the fall rent and the other half applicable to the spring rent.

Housing & Cafeteria Fees:	Per Semester	Per Year
Room Fee (men or women)	\$240.00	\$480.00
Board (7 day plan - 3 meals per day)*	350.00	700.00
Board (5 day plan - Monday-Friday)*	300.00	600.00
Laundry Fee**	15.00	30.00
Telephone - optional (cost per student)	15.00	30.00

Special Charges:

Application Fee	\$10.00
Diploma and Graduation	15.00
Identification Card	1.00
Duplicate Identification Card	2.00
Late Registration Fee	10.00
Change of Schedule Fee, for each change	2.00
Motor Vehicle Registration (per semester)	15.00
Student Health & Accident Insurance - optional	20.00 estimate
Transcripts (one transcript free of charge) each additional	1.00

*Dormitory residents are required to subscribe to either the five or seven day plan.

**Includes the use of two sheets, one pillow case and three towels each week during the academic year.

Diplomas and transcripts of work at the College are not issued until all college accounts are paid in full.

The College assumes no responsibility for loss due to fire, theft, or any other cause.

Transcript Charge:

One transcript of a student's record will be issued free of charge. Additional copies at \$1.00 each may be secured; checks or money orders should be made payable to the College of Charleston. No transcript is issued for the student whose account is in arrears either with the Office of the Registrar or with the Business Office. A student's record can be released by the Registrar only upon the specific request of the student or of a member of his immediate family. This request must normally be made in writing at least two weeks in advance of the date on which the transcript is desired.

Refunds—Fall and Spring Semester Fees

Requests for refunds will be considered only for valid reasons if submitted prior to the last day of late registration as indicated in the official calendar of the College. The \$50 tuition deposit is non-refundable.

The college makes no reduction in costs because of temporary absence during the year.

General Regulations:

Parents and guardians accept all conditions of payment and regulations upon the student's acceptance for admission.

Each student is liable for any breakage and damage to rooms and furnishings.

All students are provided with a copy of all rules and regulations of the college and each student is expected to conform with the letter and spirit of these rules developed by the Student Government with the concurrence of the faculty and administration and adopted by the Board of Trustees.

SCHOLARSHIPS AND LOAN FUNDS

No student, it is hoped, need be denied the opportunity to attend the College for reasons of insufficient financial resources; financial aid awards will be made to all academically qualified students who demonstrate financial need. Although financial aid funds are limited, the College feels it can assist a large majority of those students who apply for financial aid and who demonstrate financial need. The final date for receiving applications must be at least one month prior to the term in which the funds are to be applied.

Each student should carefully read the following information. All questions concerning financial aid should be addressed to the Office of Admissions.

College Scholarship Service

The College of Charleston participates in the College Scholarship Service Assembly (CSSA) of the College Entrance Examination Board. Participants in CSSA subscribe to the principle that the amount of financial aid granted a student should be based upon financial need. The CSSA assists colleges and universities and other agencies in determining the student's need for financial assistance. Entering students seeking financial assistance are required to submit a copy of the Parent's Confidential Statement (PCS) form to the College Scholarship Service, designating the College of Charleston as one of the recipients. The PCS form may be obtained from a secondary school or the College Scholarship Service, Post Office Box 176, Princeton, New Jersey 08540 or Post Office Box 1925, Berkeley, California 94704.

Scholarships

Several types of scholarships are open to students of the College. They are classified according to the terms under which they were established.

Graduate Scholarships

A committee of the Faculty exists for the purpose of

advising seniors who wish to secure scholarships or fellowships for graduate study. The chairman of the committee is authorized to receive applications for Rhodes, Woodrow Wilson, Fulbright scholarships and to assist students in making application to universities for graduate fellowships and assistance.

Annual Scholarships

Annual Scholarships are those awarded by organizations outside the College. Almost all of these scholarships are administered by donor organizations who specify the amounts to be granted and usually reserve the right to name the recipients. Several of the scholarships, however, may be from time to time administered by the College at the request of the donor organization.

Candidates for Annual Scholarships must make their applications directly to the donor organization. The College does not provide application forms for these scholarships.

Foundation Scholarships

The Foundation Scholarship program was established in 1959 by the Board of Trustees of the College. The program has recently been expanded so that there are twelve full-tuition scholarships available to freshmen students, both men and women, who are entering college for the first time. The awards are open to South Carolina students who have distinguished themselves by their scholastic achievements during their high school careers. The scholarship, when once awarded, is automatically renewed each semester, provided the student maintains the standards of academic excellence set by the Faculty Committee on Admissions and Scholarships.

Students who wish to be considered for a Foundation Scholarship should make early application, preferably at the beginning of the senior year in high school. In any event, completed applications should be submitted no later than January 15 in order to insure consideration. Awards are generally made by March 1.

Further details may be obtained by writing to the Director of Admissions.

The College of Charleston Foundation Grants-in-Aid:

The College of Charleston Foundation has established a fund to assist students attending the College of Charleston who demonstrate financial need and academic promise.

Endowed Scholarships

The College of Charleston Foundation administers Endowed Scholarships. Applicants are judged on the basis of their records. Taken into consideration for freshman applicants are high school records and scores made on the College Entrance Examination Board tests required for admission to the College; and for upper-classmen, past academic records at the College. The grants are usually made for the period required to complete the work leading to the Bachelor's degree, although all Endowed Scholarships are awarded for one semester and are renewed each subsequent semester only as long as the recipient continues to maintain a record satisfactory to the Scholarship Committee.

Candidates for Endowed Scholarships should file applications no later than April 1. The freshman applicant may

submit the application form for an Endowed Scholarship only after he has been officially accepted for admission to the College. Application Forms for Endowed Scholarships may be obtained from the Director of Financial Aid. The scholarships are listed along with terms under which they were established.

College of Charleston (1957). Income from the combined endowments of the Edward R. Miles Scholarship (1899), the Asher D. Cohen Scholarship (1905), the A. C. Kaufman Scholarship (1918), and the David Sternberger Scholarship (1931).

B. A. Haygood — South Carolina Electric and Gas Company Scholarship Fund (1971). A scholarship fund established to benefit students residing in the metropolitan area of Charleston.

O'Neill (1908). Michael C. O'Neill, as a memorial to his three nephews, Dennis O'Neill, Michael O'Neill, and Daniel O'Neill.

William Heyward Grimball, Jr. (1925). The late Charlotte B. Grimball and Gabrielle M. Grimball, as a memorial to their father, William Heyward Grimball, Jr. For men students.

Samuel Lapham (1925). Charleston Lodge of the Benevolent and Protective Order of Elks in honor of the late Samuel Lapham, First Exalted Ruler of Charleston Lodge No. 242.

Minnie L. Barnett (1926). Mrs. Minnie L. Barnett. For women students.

South Carolina Society (1954). The South Carolina Society.

Lancelot M. Harris (1956). Harry Simonhoff '17, as a memorial to Lancelot M. Harris, Professor of English at the College of Charleston, 1898-1941.

Margaret and Mendel Rivers (1971). Established by friends to the honor of Margaret and Mendel Rivers, for students residing in the First Congressional District of South Carolina.

S. S. Solomons (1957). By bequest of the late Mrs. Zipporah Solomons.

May A. Waring (1960). A scholarship fund established by Mrs. Katherine Waring Whipple as a memorial to her sister, May A. Waring.

Rosalie Raymond (1967). By bequest of the late Mrs. Rosalie Raymond White. For native South Carolinians.

Dorothy Drake Ulmo (1967). Established by Col. H. W. Ulmo as a memorial to his wife. For women students.

Whaley (1957). By bequest of the late Mrs. Grace W. Whaley.

Mrs. James H. Parker (1936). The New York Chapter of the United Daughters of the Confederacy in honor of Mrs. James H. Parker. Awarded only in years of even date.

Haymaker Fellowship in German (1960). Richard E. Haymaker, as a memorial to his mother, Mrs. Emma Vogelgesang Haymaker.

Alexander Baron Holmes (1969). By the bequest of the late Carolina De Fabritiis Holmes, in memory of the late Alexander Holmes and his grandfather, Professor Francis S. Holmes. For a student majoring in science.

Carolina De Fabritiis (1969). By bequest of the late Carolina De Fabritiis Holmes. For a student majoring in Romance Languages, Italian or Fine Arts.

The J. Waties and Elizabeth A. Waring Scholarship (1969). In memory of Judge J. Waties Waring and Elizabeth A. Waring. For a male student from Charleston County.

Annual Scholarships

The College of Charleston administers the following annual scholarships:

Delta Kappa Gamma Scholarship (1952). The Beta Chapter of Delta Kappa Gamma. For a junior or senior woman student in the field of education.

W. McLeod Frampton Scholarship (1962). For students studying marine biology. Established as a memorial to W. McLeod Frampton by the Agricultural Society of South Carolina. Two four-year scholarships.

South Carolina Electric and Gas Company Scholarship. A one-year scholarship awarded by The South Carolina Electric and Gas Company. The recipient must be in the upper third of his class, must have demonstrated outstanding leadership qualities, and must require financial

assistance towards achieving an education; the parents or guardians of the recipient must be customers of South Carolina Electric and Gas Company or customers of the Department of Public Utilities of Orangeburg, Winnsboro, or McCormick.

Scottish Rite, Edmund P. Grice, Jr., Memorial (1963).

The donors of the following scholarships name the recipients and administer the grants:

Sue Thomas Achurch Memorial Scholarship. Given by Alpha Nu Chapter of Delta Delta Delta for women students.

AHEPA Scholarship (1968).

Alumni Association Scholarship (1961). The Alumni Association of the College of Charleston. Three scholarships for freshmen men or women.

Bonds-Wilson P.T.A. Scholarship (1968).

Vincent J. Chicco Education Fund Scholarship (1968).

Citizens' Scholarship Foundation of North Charleston (1967).

Confederate Home Scholarships. For women students. Confederate Home Scholarship (1934); Parker Scholarship (1943) in memory of Francis L. Parker, M.D.; Snowden Scholarship (1924) in memory of Mrs. M. E. Snowden and Mrs. Isabella Snowden.

William F. Cooper Scholarship (1967).

Dr. Lewis S. Miles Memorial Scholarship (1971). A scholarship for a graduate of Summerville High School. Sponsored by Flowertown Aluminum Products Company, Inc., and its employees and friends.

Elks Local Scholarship, Charleston, S. C. (1962).

Elks National Scholarship, South Carolina (1962).

March of Dimes, Charleston Chapter, Scholarship (1963).

Pilot Club Scholarship (1936).

Post and Courier Foundation Scholarship (1956).

South Carolina Salt-Water Sportfishing Association (1971). A scholarship based on need as well as academic performance for a South Carolina student majoring in Marine Biology. The award is to be made to a rising sophomore and retained by him for a three year period subject to an annual review of his progress.

Helen Young Thomas Memorial Scholarship (1966).

Y-Teen Scholarship of the Young Women's Christian Association (1968).

Teaching Fellowships

J. Adger Smyth Teaching Fellowship (1945). By bequest of the late Mrs. J. Adger Smyth, as a memorial to her husband.

Thomlinson Teacher Fellowship (1931). Edwin S. Thomlinson.

Loan Funds

Available to students are certain sums especially marked by the donors for use as loan funds. Among the funds made available for loans are: the Bernard M. Baruch Loan Fund (established in 1939); Charleston Chi Omega Fraternity members (1939); Speissegger Loan Fund in memory of W. L. Speissegger (1949); Memminger High School Loan Fund for graduates of Charleston public high school (1950); and St. Andrews Citizens' Committee for Education Loan Fund for graduates of St. Andrews High School (1959).

National Defense Student Loans

Special consideration is given students who have superior academic backgrounds, those who express a desire to teach in elementary or high school, or those whose academic background indicates superior capacity in science, mathematics, English, or a modern foreign language. However, financial need is the factor which determines who receives the N-D-S-L.

A student may borrow a maximum of \$1,000 per year or a total of \$5,000 for the entire course of study. Repayment of principal and 3 percent per annum interest begins approximately one year after withdrawal or graduation from the College and may be extended over a ten-year period.

College Work-Study Program

The College Work-Study Program provides funding for students who are in need of the earnings from part time employment in order to pursue an undergraduate course of study. Students may work up to an average of 15 hours weekly while attending classes full time. During the summer or other vacations, they may work up to 40 hours a week. Work may be for the higher education institution or for an approved off-campus agency.

Educational Opportunity Grants

The Educational Opportunity Grants provide direct awards for full time college students of exceptional financial need. All applicants for financial aid will be considered for an Educational Opportunity Grant.

Tuition Plan Loans

The Tuition Plan is a means of enabling the student to meet tuition and other academic fees with monthly payments instead of large payments. The student negotiates directly with the Tuition Plan Incorporated, 575 Madison Ave., New York, N. Y. 10022.

REQUIREMENTS FOR DEGREES

The Trustees and Faculty of the College of Charleston are authorized by the charter of the College to confer degrees of Bachelor of Arts and Bachelor of Science. Major programs in English, History, Classical and Modern Languages, Philosophy, and Political Science lead to the degree of Bachelor of Arts. Major programs in Biology, Business Administration, Chemistry, Economics, Education, Mathematics, Physics, Psychology, and Sociology lead to the degree of Bachelor of Science. In some instances a department offering a major leading to the Bachelor of Science degree offers an additional major program oriented to the humanities and leading to the degree of Bachelor of Arts. Under usual circumstances, the program for each degree requires four years of study of which the last 32 semester hours must be done in residence at the College.

The degrees of Bachelor of Science with Medicine and of Bachelor of Science with Medical Technology are specialized forms of the Bachelor of Science degree. Either of these degrees may be conferred upon a student who has completed three years of study in residence at the College and who has met the following requirement: for the Bachelor of Science with Medicine, one year of satisfactory work as outlined in the curriculum of an accredited medical college as the first year of medicine; for the Bachelor of Science with Medical Technology, not less than twelve months of satisfactory work at the Medical University of South Carolina in the course which leads to certification by the Board of Registry of Medical Technologists. In this program the number of semester hours in the junior year at the College of Charleston must not be less than thirty. To receive the degree after these requirements have been met, the student must address a formal application to the faculty of the College of Charleston, together with an official statement from the Medical University certifying that the student has successfully completed the requirements for the degree.

The curriculum for each of the degrees is designed to provide thorough training in the required elementary subjects, a consecutive course of not less than three years in one subject, and some restriction of the junior and senior years to work of junior and senior grade. To be eligible for either the Bachelor of Arts or the Bachelor of Science

degree the student must have received passing marks in a sufficient number of courses, required and elective, to give him a total of 122 semester hours credit (or semester hours). For the degree of Bachelor of Science with Medicine or of Bachelor of Science with Medical Technology the student must have accumulated in his College of Charleston courses at least 92 semester hours credit.

Required Courses

The requirements for the degrees of Bachelor of Arts and Bachelor of Science are based on the principle that the student will derive the maximum benefit from his college work if his total course program includes several constituent elements. To afford a broad distribution of studies among representative fields of culture and modes of thought, there are Minimum Degree Requirements. There should be a concentration within a special field, and hence the requirements of the student's chosen major program. The remaining courses necessary to yield the total number of 122 semester hours for a degree are of the student's own choice, and are termed Elective.

A minimum of 122 semester hours of credit is required for the degree of Bachelor of Arts and Bachelor of Science. For all students admitted or readmitted in the fall semester of 1970, and thereafter, a minimum grade point ratio of 2.0 is required (see the section, "Grade Point Ratio," under the section on Administrative Regulations). A minimum grade point ratio of 2.0 in courses of the major is required for graduation for all students admitted or readmitted in the fall semester of 1971, and thereafter.

The Major

By the second semester of his sophomore year, each student must declare his choice of a major program of concentration within one department, and register his choice with the chairman of the department concerned and with the Office of the Dean. Registration of a major is necessary before the student can be enrolled as a junior the following year, since the department in which the student registers must approve his selection of courses after the end of the sophomore year.

The subjects in which a major is offered are biology, business administration, chemistry, economics, elementary and secondary education, English, French, German, Greek, history, Latin, mathematics, philosophy, physics, political science, psychology, and sociology.

A major program involves at least 24 semester hours in one department, and usually not more than 36 semester hours. No major program may require more than 43 semester hours, and wherever a department offers a major entailing more than 36 hours, it must offer as well a major of no more than 36 for the student's choice. Within these minimum and maximum limitations, each department specifies the actual number of semester hours in its major program or programs, and in some instances specifies some of the actual courses required.

The candidate for the degree of Bachelor of Science with Medicine or Bachelor of Science with Medical Technology does not register a major since he ordinarily will be in attendance at the College of Charleston for only three years pursuing a highly specialized program of study. This student should, however, be aware of major requirements in the event that he decides, for whatever reason, to continue in his fourth year as a candidate for a Bachelor of Science or Bachelor of Arts degree.

Minimum Degree Requirements

For all degrees, the total number of semester hours must include:

- English ✓ 6 semester hours: English 101 and 102
- History ✓ 6 semester hours: History 101 and 102
- Natural Science ✓ 8 semester hours in one of the following: Astronomy, Biology, Chemistry, Geology, Physics
- Mathematics or Logic ✓ 6 semester hours
- Foreign Language, Classical or Modern ✓ 0-12 semester hours: satisfactory completion of a course numbered 102, or demonstration of proficiency at that level by examination
- Social Science ✓ 6 semester hours from one or two of the following: Economics, Political Science, Psychology, Sociology
- Humanities ✓ 6 semester hours from one or two of the following areas: British or American literature, any foreign literature either in the original language or in English translation, Fine Arts, History (excluding 101 and 102), Philosophy (excluding 215 and 216)

Level of Placement in Courses

Entering students begin their work in foreign language or mathematics at any advanced level for which they are prepared, as determined by placement tests administered by the College. Except for the degree requirement in English and Foreign Language, placement at an advanced level does not excuse the student from the number of semester hours specified in the Minimum Degree Requirements. A student may not receive credit for an

elementary language course (01, 02) if he has offered for admission, units representing two years of that language in secondary school.

Credit for Work at Another Institution

A student who, as a candidate for a degree at the College of Charleston, wishes to receive College of Charleston credit for courses at another institution, in a summer school or otherwise, must secure the approval of the Dean of the College before registering for the courses. The Dean will consult the Registrar and the Chairman of the equivalent department at the College of Charleston, and may refer the request to the Faculty Curriculum Committee. The request for approval must be in writing and must be accompanied by a current catalog of the institution at which the work is to be done. The institution must be fully accredited, and credit for a degree at the College of Charleston can be awarded only for courses for which credit toward graduation is granted by the institution conducting the instruction. Acceptance of credit for the approved course will not become final until an official transcript of the student's record has been received by the Registrar of the College of Charleston from the institution at which the course work was taken.

The Departmental Honors Program

The purpose of the Departmental Honors Program is to give the competent upperclassman an opportunity to explore intensively a field of his particular interest. The student must take the initiative, however, in outlining his proposed research, experiment, or special study; he must enlist the support of a faculty advisor, and he must secure the approval of the department.

Whether the student prepares a Seminar report, an Independent Study project, or a Bachelor's Essay, each task should develop proficiency in library research or laboratory methodology. In addition, the finished composition should be distinguished by systematic reasoning, sensible organization, and felicitous expression.

The recommended capstone of the Departmental Honors Program is the Bachelor's Essay. The research and

writing extends over both semesters of the senior year. The student must seek one of the professors in his major department as mentor for the undertaking and submit *in writing* a proposal for his project. If his plan is accepted, he must work closely with his advisor. To allow time for proper revision of his essay, the student should submit one or more preliminary drafts for critical examination. Furthermore, the department may also prescribe whatever additional requirements it desires for insuring the quality of the work. Satisfactory completion of the Bachelor's Essay entitles the candidate to six (6) semester hours of credit.

At the conclusion of the program, Departmental Honors can be awarded only with approval of the department. To be eligible, the student must have completed a minimum of twelve (12) semester hours of exceptionally fine work in any combination of Seminar, Independent Study, or Bachelor's Essay and have a grade point ration in the major of at least 3.5. If he has submitted a Bachelor's Essay, it is catalogued and retained in the collection of the College Library.

Teacher Certification

To meet the requirements of the South Carolina State Board of Education, students must plan their four years of work to include not only the courses required under the major-minor program of the College but those specified by the State Board as necessary in general teaching education and in given subjects. With reasonable foresight, the two sets of requirements can readily be correlated. It is very important that the student make his decision early—if possible, not later than the end of his freshman year—so that his faculty advisor or other officials of the College may help him plan to include the courses he will need during the next three years.

If a student chooses to major in Secondary Education, he should be fully aware of subject-matter requirements needed for teacher certification. It is possible for a student to graduate from the College with a major in Secondary Education and be deficient in required hours in a subject field needed for certification. It is the student's responsibility to keep up to date on requirements in specific subject fields, i.e., English, history, biology, French, etc. This information is available from the Education Department and will be furnished upon request. No general statements can be made as these requirements are subject to change.

An education major in Secondary Education will satisfy professional education requirements for teacher certification. Attention must be also given to meeting general education requirements indicated below. If all three areas are given adequate attention, a student can graduate from the College with a Secondary Education major and gain teacher certification in the state of South Carolina.

A student who majors in Elementary Education and meets the general education requirements outlined in this section will graduate with a degree and will meet certification requirements for an elementary school teacher in South Carolina.

Enrollment in courses in practice teaching, *Education 401* and *Education 403*, is restricted to regular students who are candidates for a degree at the College of Charleston. Candidates must be seniors and must have the approval of the Department of Education in the College.

A detailed statement of the requirements for teacher certification is contained in *Requirements for Teacher Education and Certification Adopted by the State Board of Education*, a bulletin published by the South Carolina Department of Education.

The following summary, which may be supplemented by additional details from the Registrar, covers the requirements.

Basic college program required for both elementary and secondary certification:

12 semester hours in English;

12 semester hours in social studies (at least two fields, taken from history, political science, economics, geography, sociology, religion, and philosophy, must

be represented, with not more than six semester hours in any one field);

- 12 semester hours in science (both a biological science and a physical science must be represented, but no specified number of semester hours in either);
- 2 to 3 semester hours in Art Appreciation;
- 2 to 3 semester hours in Music Appreciation;
- 2 to 3 semester hours in Personal and Community Hygiene.

Required for Secondary Certification are the following Education courses:

- Techniques of Teaching—Education 302
- History of Philosophy of Education—Education 309
- Secondary Education—Education 304
- Human Growth and Development—Education 305
- Directed teaching in the Secondary School—Education 403

Required for Elementary Certification:

(A) Professional:

- Child Growth and Development—Education 303
- History and Philosophy of Education—Education 309
- Elementary School Curriculum—Education 307
- Teaching of Arithmetic in the Elementary School—Education 308
- Teaching of Reading in the Elementary School—Education 340
- Directed Teaching in the Elementary School—Education 401

(B) Subject Matter Courses:

- Literature for Children—Education 310
- Mathematics for the Elementary School Teacher—Education 317, 318
- Art for the Elementary School Teacher—Education 319
- *Health for the Elementary School Teacher—Education 321
- Music for the Elementary School Teacher—Education 320

*This course in Health for the Elementary School Teacher may be taken in lieu of the health course in the General Education category.

Pre-Professional Courses

Bachelor of Science with Medicine

To earn the degree of Bachelor of Science with Medicine, at least 92 semester hours of credit are earned at the College of Charleston, with the final year of work done at an accredited medical college. Upon satisfactory completion of the final year, the B.S.M. degree is awarded by the College of Charleston. Candidates for this degree must meet the minimum degree requirements for all degrees, and must include in their program the following:

Chemistry. Sixteen semester hours, of which eight semester hours must be in general inorganic chemistry, with the remaining eight semester hours in organic chemistry.

Physics. Eight semester hours.

Biology. Eight semester hours.

College Mathematics. Six semester hours.

Bachelor of Science with Medical Technology

The candidate for the degree of Bachelor of Science with Medical Technology completes at least 92 semester hours at the College of Charleston. Upon satisfactory completion of twelve months at the Medical University of South Carolina, the B.S.M.T. degree is conferred by the College of Charleston. The program of study leading to this degree must meet the minimum degree requirements for degrees of the College of Charleston, and must include also the following:

Biology: A minimum of 16 semester hours, of which at least eight must be in general biology or zoology. The remaining eight hours may be taken from courses in physiology, comparative anatomy, histology, genetics, or other biology courses generally acceptable toward a biology major.

Chemistry: A minimum of 16 semester hours, of which at least eight hours must be in general chemistry. The remaining eight hours may be taken from quantitative analysis, organic chemistry, physical chemistry, or other chemistry courses generally acceptable toward a chemistry major. It is strongly recommended that at least one semester of quantitative analysis be taken.

Mathematics: A minimum of three semester hours of college mathematics.

Physics: Strongly recommended, but not specifically required.

COURSES OF INSTRUCTION

1971 - 1972

Careful attention should be paid to the prerequisite requirements of some courses. In general, courses numbered 100-199 are open to freshmen, but in some instances courses numbered in a higher register are available without prerequisite to freshmen, who should consult their faculty advisor prior to registration.

Single numbers denote one-semester courses; double numbers joined by a hyphen denote year courses.

Not every course is offered each semester. For the specific courses offered in a given semester, one should consult the official Schedule of Courses published by the College. The College reserves the right to withdraw any course for which there is insufficient demand.

BIOLOGY

MAJOR REQUIREMENTS FOR THE B.S. DEGREE. 28 semester hours in Biology to include Seminar (401); one year of Physics; Chemistry through Organic Chemistry; Mathematics through Calculus I.

MAJOR REQUIREMENTS FOR THE B.S. DEGREE WITH EMPHASIS IN MARINE BIOLOGY (intended to prepare the student for graduate work in Marine Biology or Oceanography). At least 28 semester hours in Biology to include: 101, 102, 103, 310, 314, and 315; Chemistry 101-102, 206; one year of Physics; Mathematics through Calculus I; Geology 101, 103.

MAJOR REQUIREMENTS FOR THE B.A. DEGREE. 28 semester hours in Biology to include Seminar (401); one year of Chemistry; one year of Mathematics.

All majors are required to take a comprehensive examination during the senior year.

Students who plan to pursue a career in Biology should consider additional courses in this discipline and some of

the following as electives: Physics 220; Chemistry 206, 308, 401-402; Mathematics 211, 212, 216; Geology 101, 102, 103; Foreign Language 201, 202, an additional Foreign Language; Philosophy 215, 216, 265.

Except in the courses Biology 203 and 232, Biology 101 and 102, or 103 and 202, are prerequisites for all biology courses above the 100 level. For the courses Biology 203 and 232 the prerequisite is Biology 101 and 102.

101 General Biology (4)

A survey of fundamental properties of living organisms as seen in their structure, physiology, reproduction, development, classification, and evolution. Lectures, three hours a week; laboratory, three hours a week.

102 General Biology (4)

A continuation of Biology 101, which is prerequisite.

103 Botany (4)

A survey of the plant kingdom including morphology, physiology, ecology and economics of plants. Lectures, three hours a week; laboratory, three hours a week.

202 Plant Taxonomy (4)

The collection, identification, and classification of vascular plants, with special emphasis on the local flora. The student will have practice in the use of keys and herbarium techniques. Lectures, two hours a week; laboratories, four hours a week.

Prerequisite: Biology 101 & 102 or 103.

203 Vertebrate Physiology

A systematic study of cellular, organ and organ system functions in vertebrate animals. Lectures, three hours a week; laboratory, three hours a week.

Prerequisite: One year of Chemistry.

209 Marine Biology (4)

An introduction to the study of marine organisms and their environment. Offered in summer session only.

232 Vertebrate Zoology (4)

Life histories, adaptations, ecology, and classifications of vertebrate animals. Laboratory work emphasizes living material from the local fauna. Lectures, two hours a week; laboratory, four hours a week.

234 Ornithology (4)

An introduction to the biology of birds. Laboratory work will emphasize the identification, classification, behavior, and ecology of local species. Offered in the summer session only.

Prerequisite: Biology 101 and 102 or equivalent; or by permission of instructor.

301 Genetics (3)

The principles of heredity, development, and evolution, and their significance for medicine, sociology, eugenics, and improvement of domestic animals and plants. Lectures, three hours a week.

302 Histology (4)

A detailed study of the microscopic structure of mammalian tissues and organs. Lectures, three hours a week; laboratory, three hours a week.

303 Evolution (3)

A study of the mechanisms and patterns of plant and animal evolution, with emphasis on the species level of organization. Lectures, three hours a week.

Prerequisite: Biology 101&102 (General Biology) and Biology 301 (Genetics).

305 Comparative Vertebrate Embryology (4)

Comparative gametogenesis, fertilization, and embryology of the vertebrates. Organogenesis in frog, chick, and pig embryos studied in detail. Lectures two hours a week; laboratory, five hours a week.

306 Comparative Anatomy of Vertebrates (4)

Lectures on phylogeny of vertebrate organ systems, and laboratory dissection of dogfish, Necturus, and cat. Lectures, two hours a week; laboratory, five hours a week.

310 Oceanography (4)

An introduction to the study of the marine environment. Lecture and laboratory work will emphasize the interrelationships of physical, chemical, geological, and biological processes in the sea. Prerequisites: one year each of college mathematics, chemistry and biology.

314 Invertebrate Zoology (4)

Classification, morphology, physiology, behavior, and life histories of invertebrates. Laboratory work centered on study of living material from the local fauna. Lectures, three hours a week; laboratory at the George D. Grice Marine Biological Laboratory, three hours a week.

315 General Ecology (4)

Consideration of organisms and their environmental relationships. Lectures, two hours a week; laboratory at the George D. Grice Marine Biological Laboratory, five hours a week.

318 Cell Biology (4)

A detailed morphological and physiological study of the gross and ultra structure of the cell, using both plant and animal tissues. Lectures, three hours a week; laboratories, three hours a week.

Prerequisite: Biology 101&102, plus one year of Chemistry.

320 Biology of Fishes (4)

A brief survey of gross morphology with emphasis on the structure used in identification, and more detailed considerations of some of the

aspects of physiology, ecology, life histories, and behavior. Lecture, 3 hours; laboratory, 3 hours, held at the George D. Grice Marine Biological Laboratory.

323 Problems in Marine Biology (1-4)

Literature and laboratory investigations of specific problems directly concerned with ecology, distribution, or development of marine organisms. Open to advanced juniors and seniors interested in continuing toward a graduate degree in biological or related sciences. Credit value determined by type of problem. Enrollment by permission of the instructor.

325 Problems in Biology (1-4)

Literature and laboratory investigation of specific problems in biology, the nature of the problem to be determined by the interest of the student after consultation with departmental faculty. Open to advanced juniors and seniors interested in continuing toward a degree in biological or related sciences. The credit value is determined by the type of problem. Enrollment by permission of the instructor.

326 Ichthyology (4)

Morphology, evolution, systematics, and geography of fishes. Lectures, 3 hours; laboratory, three hours, held at the George D. Grice Marine Biology Laboratory.

400 Experimental Embryology (1-4)

Techniques in fish, amphibian, and chick experimental embryology. The credit value is determined by the type of problem. Enrollment by permission of the instructor.

401 Seminar (1)

Required of all senior biology majors.

BUSINESS ADMINISTRATION AND ECONOMICS

BUSINESS ADMINISTRATION

The major in business administration requires thirty-six semester hours in business administration and economics which must include: B.A. 203, 204, 301, 302, 303, 304; Econ. 201 and 202.

ECONOMICS

The major in economics requires thirty semester hours in economics and business administration which must include: Econ. 201, 202, 303, 317, 318, and B.A. 304.

BUSINESS ADMINISTRATION

105 Introduction to Business (3)

A course for all students of the College who are interested in a survey of the variety of activities that occur in a business institution. The various types and forms of business organizations will be presented and analyzed. Special emphasis will be given to the role of the business enterprise in society.

203 Accounting Concepts I (3)

An introduction to accounting as a device for reporting business activity. The principles of accounting are presented in addition to the construction and interpretation of financial statements.

204 Accounting Concepts II (3)

A continuation of the first course in accounting with emphasis upon the utilization of accounting information as an aid in business decision making.

Prerequisite: B.A. 203.

301 Management Concepts (3)

A presentation of the concepts underlying the management process. The concepts will serve to strengthen the student's understanding of the universal functions of management; planning, organizing, directing, and controlling.

302 Marketing Concepts (3)

Channels of distribution, marketing and sales problems, and related topics are presented to give the student an understanding of the many functions involved in the process of distributing goods and services.

303 Business Finance (3)

This course presents the fundamental concepts of finance with emphasis upon the corporate form of business organization. Special attention will be given to the financial administrator's role as a decision maker.

Prerequisite: B.A. 204.

304 Statistics (3)

Basic methods of collecting and presenting data are introduced including index numbers, central tendency, dispersion, probability, sampling, inference, and correlation.

Prerequisite: Mathematics 104 or 112, or equivalent.

305 Government and Business Relations (3)

This course is designed to emphasize the legal environment of business relations and the pluralistic nature of the economy of the United States. The principal federal regulations which apply to business and union activities are presented in order to provide the student with an understanding of the limitations of an administrator's authority in the field of public policy. (Business Administration majors may use either B.A. 305 or B.A. 306, but not both, as partial fulfillment of their major requirements.)

This course is also listed as Political Science 305.

306 Business Law (3)

A course designed to cover the legal aspects of business operations; including contracts, agency, sales, negotiable instruments, security devices, property, partnerships, and corporations. (Business Administration majors may use either B.A. 305 or B.A. 306, but not both, as partial fulfillment of their major requirements.)

307 Personnel Management (3)

The principles, practices, and scientific techniques and devices used in

the development and operation of an effective personnel program.

Prerequisite: Business Administration 301

401 Human Relations (3)

This course describes and analyzes the growth, development, and applications of the behavioral sciences to industrial society. Emphasis is placed upon the social, psychological, and cultural aspects of the work environment.

Prerequisite: B.A. 301.

402 Seminar in Administration (3)

A seminar designed to enable the student to conduct a comprehensive investigation into an area of interest in the administration of organizational affairs.

Prerequisite: Four departmental courses including B.A. 301 and consent of the instructor.

405 Marketing Problems (3)

An advanced marketing course designed to acquaint students with the many facets of marketing and distribution administration. Market research and marketing policies will receive special attention.

Prerequisite: B.A. 302.

406 Quantitative Methods and Decision Making (3)

The course will begin with a brief coverage of matrix algebra, and differential and integral calculus. An overview of the decision-making function will be presented prior to an introduction to some linear and nonlinear deterministic and stochastic models. Special emphasis will be given to the linear programming approach to decision making.

Prerequisite: Mathematics 112, or consent of the instructor.

408 Business Policy (3)

A course for senior business administration majors which draws together the functional areas of business operations: accounting, finance, marketing, and production, as a means of developing the students' conceptual and decision-making abilities. Case studies will be used extensively.

Prerequisite: B.A. 203, 301, 302, and 303.

ECONOMICS

201 Principles of Economics I (3)

The foundation of economic analysis is presented, including identification of basic social goals; money and credit systems; and theories of national income, employment, and economic growth.

202 Principles of Economics II (3)

The problems of the market are presented; product and factor pricing; allocation of resources and distribution of income; market equilibrium analysis; and analysis of domestic problems and policies. A prerequisite for courses at the 300-level and higher.

Prerequisite: Econ. 201.

303 Monetary Theory (3)

A study of money and banking, the Federal Reserve system, monetary and fiscal policies, credit flows, and the impact these activities have upon business decisions and economic activity.

304 Labor Economics (3)

An examination of the role and history of the labor movement in the economic development of the United States, with special emphasis on labor-management relations, collective bargaining, wage determination, employment, unionism, wages and hours, governmental policies affecting labor, and current problems.

308 Evolution of Economic Doctrines (3)

A study of the principle contributions to economic theory and method, and the relationship of these contributions to their time and to each other.

310 International Economic Relations (3)

A survey of the development of international economic relations from the Mercantillist Period to the present time, and an analysis of the leading theories which have been advanced to explain and interpret these developments.

315 Introduction to Mathematical Economics (3)

An introductory survey of the use of mathematical methods in economic analysis.

Prerequisite: Mathematics 104 or 112.

317 Microeconomic Analysis (3)

A study of the analytical techniques used in investigating the determination of product and factor prices under different market structures.

318 Macroeconomic Analysis (3)

An intensive study of Classical, Keynesian, and post-Keynesian macroeconomic models.

400 Senior Seminar in Economics (3)

A seminar on a particular problem or question in economic policy, open to senior majors in economics and to any senior Honors student.

404 Independent Study (1-3)

The student will select a reading or research project in consultation with a faculty member, who will guide the work and determine the hours of credit to be allowed.

CHEMISTRY

The Pre-professional Major Program. This program is designed for students who intend to pursue graduate work in Chemistry or who plan to enter chemical industry after graduation. Students who major under this program will be considered candidates for the Bachelor of Science degree.

The course requirements total forty-three hours in Chemistry: Chemistry 101-102, 204 or 404, 206, 303-304, or 311-312 and 311L-312L, 307, 401-402, 406, and either 305, 308, or 403. Physics 103-104 or its equivalent is required of all B. S. Chemistry majors. German is strongly recommended to satisfy the foreign language degree requirement.

The Liberal Arts Major Program. In this program, the course requirements in Chemistry are intended to provide the student with an adequate background in the principal areas of chemistry while permitting a greater concentration in the humanities than is generally feasible in the pre-professional program. This program leads to a B.A. degree.

The major requirement is thirty semester hours in chemistry, consisting of Chemistry 101-102, 206, 303-304 or 311-312 and 311L-312L, and 401-402.

A breakage deposit of five dollars is required of all students enrolled in a laboratory course in chemistry.

101-102 Principles of Chemistry (4-4)

An introductory course in chemistry emphasizing theoretical aspects and designed primarily for students who intend to take one or more additional courses in chemistry. Lectures, three hours a week; laboratory, three hours a week. Prerequisite or corequisite: Mathematics 111.

103-104 General Chemistry (4-4)

A course in general chemistry, less theoretical than Chemistry 101-102, but more descriptive and broader in scope. Intended for students who desire only a single course in chemistry. Students who wish to transfer to Chemistry 102 after completing Chemistry 103, or who want to take additional chemistry after completing Chemistry 104, may do so only with approval of Chemistry Department. Lectures, three hours a week; laboratory, three hours a week.

204 Inorganic Chemistry (3)

The fundamental theories and concepts of inorganic chemistry. Topics to be considered may include the periodic arrangement of the elements, inorganic nomenclature, coordination complexes, valency concepts, crystal structure, reaction mechanisms, oxidation-reduction, inorganic stereochemistry, acid-base theories, descriptive chemistry of some of the less common elements. Lectures, three hours a week.

Prerequisite: Chemistry 101-102.

206 Quantitative Analysis (4)

A study of the chemistry of quantitative analysis. Special attention is given to equilibria involving acids, bases, precipitates, complex ions, and oxidizing and reducing agents. In the laboratory an opportunity is provided for solving problems in gravimetric and volumetric analysis, along with an introduction to the use of instruments for chemical analysis. Lectures, two hours a week; laboratory, five hours a week.

Prerequisite: Chemistry 101-102.

303-304 Organic Chemistry (4-4)

An introduction to the chemistry of carbon. A systematic study of nomenclature, structure, properties, preparations, and reactions of aliphatic and aromatic compounds. Attention given to recent developments in interpretation of structure and reaction mechanisms. Laboratory exercises include practice in more frequently used laboratory operations and small-scale synthesis of representative organic compounds. Lectures, three hours a week; laboratory, three hours a week.

Prerequisite : Chemistry 101-102. Open to sophomores; enrollment priority given to juniors and seniors.

305 Advanced Organic Chemistry (3)

Topics in organic chemistry are selected by students and instructor for class presentation and discussion. Emphasis is on understanding of why organic reactions take place as they do and in recent developments on the frontiers of organic chemistry. Lectures, three hours a week.

Prerequisite: Chemistry 303-304 or 311-312.

307 Organic Qualitative Analysis (3)

A study of the chemistry and techniques involved in the separation and identification of organic compounds. The student analyzes a wide variety of compounds in the laboratory, using spectral data, physical constants, and chemical tests. Lectures, one hour a week; laboratory, six hours a week.

Prerequisite: Chemistry 303-304, or Chemistry 311-12 and 311L-312L.

308 Biochemistry (3)

An introduction to the chemistry of the biological compounds. A systematic study of carbohydrates, lipids, amino acids, proteins, nucleic acids and their components is presented. Metabolism of the biological compounds is studied as are the interrelations among the carbon, nitrogen, and energy cycles. Lectures, three hours a week.

Prerequisite: Chemistry 303-304 or 311-312.

Corequisite: Chemistry 308L. The corequisite may be waived with the instructor's permission.

308L Biochemistry Laboratory (1)

Designed to teach general techniques used in modern biochemistry. Analysis of carbohydrates, proteins, lipids, and other cellular components. Laboratory, three hours a week.

Prerequisite: Chemistry 303-304 or 311L-312L.

Corequisite or prerequisite: Chemistry 308.

311-312 Organic Chemistry (3-3)

An introduction to the chemistry of carbon. A systematic study of nomenclature, structure, properties, and reactions of aliphatic and aromatic compounds. Attention given to recent developments in interpretation of structure and reaction mechanisms. Lectures, three hours a week.

Corequisites: Chem. 311L and 312L. These corequisites may be waived with the instructor's permission.

311L Organic Laboratory Practice (1)

Practice in the standard laboratory operations employed in the isolation

and purification of organic compounds. The methods and techniques developed are utilized in the synthesis of representative compounds. Laboratory, three hours a week.

Corequisite or prerequisite: Chemistry 311.

312L Organic Synthesis and Analysis (1)

Additional synthetic methods plus an introduction to organic compound identification.

Prerequisite: Chem. 311L. Corequisite or prerequisite: Chem. 312.

401-402 Physical Chemistry (5-5)

Basic principles of chemistry treated primarily from theoretical standpoint. The major topics covered are atomic and molecular structure; properties of gases, liquids and solids; elementary chemical thermodynamics; theories of solution; homogeneous and heterogeneous equilibria; electrochemistry and surface chemistry. Lectures, three hours a week; laboratory, six hours a week.

Prerequisite: Chemistry 206.

Prerequisite or corequisite: Math 211.

403 Advanced Physical Chemistry (3)

A supplemental course to Chemistry 401-402 dealing primarily with molecular structure and bonding and with statistical thermodynamics.

Prerequisites: Chemistry 401-402, Mathematics 401.

404 Advanced Inorganic Chemistry (3)

An advanced course which aims to provide a balanced view of the theoretical principles involved in present-day inorganic research.

Prerequisite: Chemistry 401.

Prerequisite or corequisite: Chemistry 402.

406 Advanced Analytical Chemistry (4)

Theory and principles underlying the techniques of modern analytical chemistry. The student carries out qualitative and quantitative analysis using chromatographic, spectrophotometric, electroanalytical, and other selected methods. Lectures, three hours a week; laboratory, three hours a week.

Prerequisite: Chemistry 206.

408 Introductory Research (2)

An opportunity is provided for students to use the literature and to apply a variety of experimental techniques in investigation of selected problems in inorganic, analytical, organic, or physical chemistry. A report will be made to the Chemistry Staff at the conclusion of the project. Open to seniors majoring in chemistry on the approval of the department. Arrangements for a project should be made with the department during the semester prior to that in which it is carried out.

CLASSICAL LANGUAGES

GREEK

The Major: Thirty-three semester hours, which must include Greek 307 and Greek 308.

Note: Courses in Greek will be offered only if there is sufficient demand.

- 01 Elementary Greek (3)**
- 02 Elementary Greek (3)**
A continuation of Greek 101, which is prerequisite.
- 103 Greek Prose Writers (3)**
The reading of selected writers of increasing difficulty. This course is a prerequisite for Greek 104 and all Greek courses of higher level.
- 104 Greek Prose Writers (3)**
A continuation of Greek 103, which is prerequisite.
Advanced courses in Greek may be taken from the following, as there is demand:
300 Homer (3); 301 Plato (3); 302 Euripides, Aristophanes, and the Greek Drama (3); 303 Thucydides and the Greek Historians (3); 307 Attic Prose Composition (3); 308 Attic Prose Composition (3); 401 Lyric Poetry (3); 402 The Greek Tragedians (3); 403 The Greek Orators (3); 404 Directed Reading in Greek Literature (3).

LATIN

The Major: Twenty-seven semester hours, beginning with Latin 101 and 102.

Note: Courses in Latin will be offered only if there is sufficient demand.

- 01 Elementary Latin (3)**
A beginner's course approximating in content the first and second years of high school Latin.
- 02 Elementary Latin (3)**
A continuation of Latin 01, which is prerequisite.
- 101 College Latin (3)**
Selections from Latin prose.
- 102 College Latin (3)**
Selections from Latin poetry with emphasis on Catullus and Horace.
Prerequisite: Latin 101.
- 201 Cicero's and Pliny's Letters (3)**
- 202 Latin Lyric Poetry (3)**
Advanced courses in Latin may be taken from the following, as there is demand:
302 Roman Dramatic Literature (3); 303 Roman Historical Literature—Tacitus or Suetonius (3); 401 Roman Satire (3); 402 Cicero's Orations (3); 403 The Latin Epic, Virgil or Lucretius (3); 404 Directed Reading in Latin Literature (3).

CLASSICS

100 Roman Literature in English Translation (3)

A survey of important works of comedy, poetry, epic, satire, and philosophy. No knowledge of Latin is required or assumed.

NOTE: This course may be taken as an elective, or applied to the minimum degree requirement in Humanities. It may not be applied to the requirement in Language, or to the major requirements in Latin.

103 Greek Literature in English Translation (3)

A survey of the beginnings and development of the literature of classical Greece. No knowledge of Greek is required or assumed.

NOTE: This course may be taken as an elective, or applied to the minimum degree requirement in Humanities. It may not be applied to the requirement in Language, or to the major requirements in Greek.

EDUCATION

Elementary Education

The Major: Thirty-six semester hours.

303 Child Growth and Development (3)

An introduction to child behavior and development from birth to early adolescence. Emphasis upon intellectual development and the socialization process.

307 Elementary School Curriculum (3)

Principles and practices in adapting the curriculum to the needs of elementary school children.

308 Teaching of Arithmetic in the Elementary School (3)

Modern concepts of elementary school mathematics. Materials and teaching procedures.

311 English—Literature for Children (3)

A review of old and new literary materials suitable for elementary school children. The art of story-telling, teaching techniques various literary forms, and integration of literature with other facets of the curriculum will be emphasized.

317 Mathematics—Mathematics for the Elementary School Teacher I (3)

Notation systems, sets, relations, and other topics commonly covered in an elementary school mathematics program.

318 Mathematics—Mathematics for the Elementary School Teacher II (3)

Informal geometry and basic concepts of algebra.

319 Art—Art for the Elementary School Teacher (3)

Experiences with design and color, materials and processes, child growth and development of art. Problems and procedures for development of art skills and learning for elementary school children.

320 Music—Music for the Elementary School Teacher (3)

An examination of objectives, content, instructional materials, teaching practices and procedures for music classes at the elementary school level.

- 321 Health—Health for the Elementary School Teacher (3)**
Health needs of children: objectives, curriculum, principles and procedures of conducting a health program for elementary school children.
- 322 Social Studies for Elementary School Teachers (3)**
Curriculum, instructional approaches, and materials for teaching social studies in elementary school.
- 323 Foundations of Librarianship (3)**
The history and development of the library as a cultural, fundamental institution of society; librarianship as a profession; the range of library services on all levels; principles and objectives of library organization.
- 330 Communication and Language Arts for the Linguistically Difficult Child**
The course will focus upon the nature and function of language, normal language acquisition in children, dialect variations and their implications for learning communication skills. Emphasis will be placed upon developing techniques and materials to teach language skills to non-standard speakers of English.
- 340 Fundamentals of Basic Reading (3)**
Study of reading skills in relation to the psychological bases; developmental principles; historical and current issues in reading practices.
- 345 Methods and Materials of Teaching Mathematics in the Elementary School (3)**
Study of curriculum, methodology, and materials for teaching modern mathematics.
- 401 Directed Teaching in the Elementary School (6)**
Offered in Summer Session only. The student is required to teach the entire school day for both semesters of the college summer school session from 8:00 A.M.—1:00 P.M. for at least 10 weeks. Observation, teaching, participation.
- 440 Methods and Materials for Reading Instruction (3)**
An analysis of trends and practices in the teaching of reading, materials and their utilization, critical review of literature in selected areas.
- 441 Diagnosis and Correction of Reading Difficulties (3)**
Emphasis is on diagnostic procedures and remediation of reading disability. Correction is diagnostically based.
- 442 Practicum in Reading (3)**
A supervised practicum stressing procedures and materials for corrective work, group and individual.
- 450 Measurement and Evaluation of Student Performance (3)**
Nature and function of measurement in education. Standardized tests and scales. Simple statistical and item analysis techniques for classroom use in constructing and evaluating teacher-made tests.

Secondary Education

The Major: Twenty-four semester hours.

201 Introduction to Education (3)

A course intended to familiarize the student with current trends in American public education. Brief study of organization, administration, curriculum, personnel policies, and student populations both in terms of the present and historically.

302 Techniques of Teaching (3)

A study of teaching as a science; work with role playing, simulation, utilization of psychological concepts in the presentation of data, the writing of educational objectives.

304 Secondary Education (3)

An examination of modern American high schools, methods of funding, legal aspects of teaching, patterns of organizing curriculums. Examination of faculty rights and responsibilities—visitation and observation in schools—school board meetings, P.T.A. meetings.

305 Human Growth and Development (3)

A personal examination of behavioral patterns of school-aged children. Visitation 2 hours per week in public schools observing children and adolescents at specified grade levels. Study of relevant printed data.

309 History and Philosophy of Education (3)

A study of philosophical problems which have educational implications. A brief study of the importance of the past as it influences the present.

310 Principles of Guidance and Counseling (3)

A basic course dealing with the development of the guidance movement, the services rendered under the heading of guidance and counselling, and current theories of counselling.

315 Introduction to Educational Television (3)

A general course covering the following: the uses of television in education, the nature of the medium, basic production and technical terminology, general coverage of the fundamental electronics of television, survey of the history of television, and the uses of television in teaching machines. Limited studio experience.

341 Teaching of Reading in Secondary School

Methods and materials of teaching basic and developmental reading skills; programming special services in reading instruction. Demonstrations of tests and devices.

400 Senior Paper in Education (3)

For Secondary Education majors only. A research study in a local high school utilizing recognized research tools in the field of education. Topic must be developed by the student through a survey of relevant literature and narrowed to a manageable topic through discussion with the instructor. Paper must be completed in one term.

403 Directed Teaching in the Secondary School (6)

Students are placed in local high schools in subject matter fields. Approximately 50-60 hours of teaching, 30-40 hours of observation and participation. Class meeting on campus, one hour a week. Students may enroll in this course for either the first semester of the academic year, or

for the second semester, but in any event, the student must register for the course in September, at the beginning of the academic year, in order that provision may be made with the local high schools to accommodate the student teachers. In determining the student's course load for the semester, this course will be considered the equivalent of two three-semester-hour courses.

Prerequisites or corequisites: Education 302, 304, 305, 309 or approval of the instructor.

417 Basic Production Techniques in Educational Television (3)

A laboratory course in which the student becomes familiar with the television camera, VTR, production console, film chair and all associated studio equipment. He will work in producing and directing at least one 30 minute ETV program during the semester after extensive work on camera, the audio and video control boards, and the film chair.

Prerequisite: Education 315.

SPECIAL EDUCATION

420 Introduction to the Education of Exceptional Children (3)

Introduction to programs, problems, and procedures of working with children who are exceptional—mentally, physically or emotionally. Focuses on children who have problems of vision, hearing, speech, as well as those with physical and neurological defects. Some attention is given to recent research dealing with the exceptional child and special education programs.

421 Psychology of Mental Retardation (3)

Psychological aspects of mental retardation; learning, motivation, and personality development.

422 Educational Procedures for Teaching the Mentally Retarded (3)

Study, selection, preparation for curricular materials; methods of teaching retarded children within the pre-adolescent and adolescent range.

423 Practicum in Instruction of Exceptional Children (3)

Methods are studied for diagnosing and teaching brilliant, retarded, physically handicapped, and emotionally maladjusted children. Field work at the South Carolina Retarded Children's Habilitation Center.

424 Nature of Crippling and Special Health Problems (3)

Procedures to be used in the education of children who are handicapped physically, mentally, or emotionally. Attention is given to work with individual children as well as with groups.

425 Educational Procedures for Teaching the Emotionally Disturbed Child (3)

A study of educational techniques, materials, and equipment used in teaching emotionally disturbed children. Curriculum for both classroom and individual clinical teaching is included.

DISTRIBUTIVE AND VOCATIONAL EDUCATION

370 Methods of Trade Teaching (3)

This course provides basic instruction to beginning teachers in trade

work. It includes psychological factors of learning, individual differences, methods of teaching subjects, special methods used in teaching skills, grading of students, and keeping proper records and reports.

371 History and Philosophy of Industrial Education (3)

The course deals with development of industrial education, aims and objectives of vocational industrial education and industrial arts education, basic laws and trends in federally aided programs, state plans, and changes in practices due to changing philosophies and technological development.

372 Human Relations in Industry (3)

This course treats important phases of the application of psychology to industrial problems. It consists of a study of labor problems, labor legislation, employment conditions, and the labor movement. It also aims to provide all students with a background against which they can interpret and evaluate significant developments in the field of labor relations.

373 Teaching Industrial Subjects (3)

Effective methods and techniques of teaching industrial subjects is the focus of this course. Emphasis is given to class organization, preparation of lesson outlines, and audio-visual aids. The course is required for all trade and industrial instructors. The other courses listed are elective.

460 Development, Structure, and Operation of the Distributive Education Program (3)

The philosophy and development of vocational education with emphasis on Federal, state and local relationships in distributive education. Organization and operation of balanced distributive education programs on the secondary, post-secondary and adult levels including project and cooperative methods, curriculum, coordination techniques and public relations.

461 Supervision of the Distributive Education Program (3)

The role of the teacher-coordinator as a supervisor of a total program of distributive education in a community. Advanced study of methods and techniques in program administration with emphasis on recent research findings, curriculum developments, and operational techniques. For experienced teacher-coordinators of distributive education.

462 Supervision of the Adult Program in Distributive Education (3)

Emphasis upon the planning and development of well-balanced adult programs in distributive education. Methods used in the selection, training, and supervision of part-time instructors in the adult program.

463 Leadership Development in Distributive Education (3)

The development of leadership qualities for supervisors of distributive education programs. Emphasis upon the supervisor and his job; principles of delegation, conference leading, decision making, program planning and evaluation, and in-service training. For experienced teacher-coordinators and directors of distributive education programs.

NOTE: The specific requirements for certification by the South Carolina State Board of Education are listed earlier in the section, "Requirements for Degrees." Majors in Elementary Education and

Secondary Education are urged to make themselves familiar with these requirements so that they may include the appropriate courses in their baccalaureate program.

ENGLISH

The Major: Thirty-six semester hours, of which at least twenty-four must be from courses above the 202 level, and which must include English 201, 202, English 301 or English 302, English 304 or English 306, and English 315 or 316.

English 101 and 102 and English 201 and 202 are prerequisites for all English courses at the 300 level and above.

101 **The Nature of Language and the Principles of Composition (3)**

A study of words, their complex usage, and their relationships in the clear expression of one's thought and personality. Emphasis is placed on enhancing the student's ability to understand and put to use the concrete and abstract forms of his language. Composition stresses unity, coherence, and structure. Selected readings and original classwork are used for direction and comparison.

102 **The Nature of Literature (3)**

An introduction to literary types, considered as art forms and as expressions of the range of possibilities in human experience.

Prerequisite: English 101 or its equivalent.

104 **Public Speaking (3)**

An introduction to the theory and practice of oral communication. Emphasis is given to all forms of performance: platform speechmaking, radio, television, and stage.

201 **Major British Writers (3)**

Intensive study of major works of representative authors, including Chaucer, Shakespeare, Donne, Milton, Swift, and Pope. Emphasis is on close reading and analysis rather than on literary history. Lectures on intellectual backgrounds.

202 **Major British Writers (3)**

Intensive study of major works of representative authors, including Wordsworth, Coleridge, Keats, Tennyson, Browning, Arnold, Yeats, Eliot, and one Nineteenth Century novel. Emphasis on close reading and analysis rather than on literary history. Lectures on intellectual backgrounds.

Prerequisite: English 201 or its equivalent.

210 **General Semantics (3)**

A psychological approach to the study of language as an abstracting process employing a system of verbal symbols for informative, directive, and affective purposes. Open to freshmen, sophomores, juniors and seniors.

301 **Shakespeare: The Early Period (3)**

302 **Shakespeare: The Later Period (3)**

303 **Modern English Grammar (3)**

A study of grammatical analyses, with emphasis upon transformational-generative grammar.

- 304 Chaucer (3)**
 Selections from his major poetical works in the original.
- 305 Advanced Composition and Rhetoric**
 A detailed consideration of rhetoric (classical and modern); the use of rhetorical principles in one's own writing.
- 306 Milton (3)**
 The poetry and selected prose of John Milton.
- 310 The Development of Modern English (3)**
 Scientific approach to study of the English language, including major developments of linguistic change and methods of studying language that have preceded present-day linguistics. The historical analysis of the language should include a study of such topics as phonology, morphology, dialectology, lexicography, semantics, etymology, and usage.
- 311 Medieval Literature: Non-Chaucerian (3)**
- 314 Non-Dramatic Literature of the Renaissance (3)**
 A survey of poetry and prose from 1500 to 1620, with emphasis on the Oxford reformers, the rise of the lyric and of prose narration, Sidney and the sonneteers and Spenser.
- 315 American Poetry and Prose, I (3)**
 American literature from the colonial period to the mid-nineteenth century, with emphasis on Franklin, Irving, Cooper, Poe, Emerson, Thoreau, Hawthorne, and Melville.
- 316 American Poetry and Prose, II (3)**
 American literature from the middle of the nineteenth century to the beginning of the twentieth, with emphasis on Whitman, Twain, Howells, Dickinson, Crane, and James.
- 317 The Seventeenth Century (3)**
 A study of poetry and prose of Seventeenth Century England; Donne, Herbert, Marvell, Bacon, Browne, Hobbes, Locke.
- 318 The Eighteenth Century (3)**
 A study of poetry and prose of Eighteenth Century England.
- 319 Literary Criticism (3)**
 An introduction to literary analysis with particular emphasis upon the terminology, language, and techniques of literary criticism; emphasis placed upon direct examination and study of literary texts; special attention given to developing skills in close reading of text in poetry, fiction, and drama. The writing of critical papers. Texts selected from significant writings of American and English authors.
- 320 Literature for Adolescents (3)**
 A critical study of literature relevant to the adolescent, incorporating major literary genres and appropriate media.
- 321 The Romantic Period: Poetry and Prose (3)**
- 323 The Victorian Period: Poetry and Prose (3)**
- 324 Victorian Prose (3)**
 Emphasis is on the intellectual currents of the century—especially those

inherited by the Twentieth Century—exemplified in Carlyle, Newman, Mill and Spencer, Darwin and Huxley, Ruskin and Arnold. Offered in alternate years.

327 The Development of the English Novel: I (3)

A study of the major English novelists of the Eighteenth Century.

328 The Development of the English Novel: II (3)

A study of the major English novelists of the Nineteenth Century.

334 Creative Writing (3)

Open with permission of instructor.

335 Modern Poetry (3)

A study of the specific nature and development of Twentieth Century British and American poetry, limited to selected major figures: Yeats, Eliot and Pound, Hopkins, Frost, Stevens, and Thomas.

336 Modern Fiction (3)

A study of the nature and development of modern English and American fiction from James and Conrad to the present.

337 English Drama to 1800 (3)

A study of selected plays from the medieval beginnings of English drama through the end of the Eighteenth Century, Shakespearean plays excluded.

338 Modern Drama (3)

A study of the significant developments in English and American drama from the Ibsen to the Theatre of the Absurd.

339 Advanced Creative Writing (3)

Continuing development of ability to read, and to write, as the searching, choosing, controlling creative writer does. Progressive practice of advanced grasp of technique and disciplines of writing as an art. Reading assignments evoke step-by-step scrutiny of what is happening in a good or great work, of why each step has been made, of how it works for the whole in working for itself. Open with permission of the instructor.

341 Southern Literature (3)

A study of the nature and development of Southern literature from the late Eighteenth Century to the present. The required reading list may be altered from year to year, but will usually include poetry, short stories, and novels by major Southern writers to include Edgar Allan Poe, Joel Chandler Harris, Ellen Glasgow, Thomas Wolfe, John Crowe Ransom, Allen Tate and William Faulkner.

Prerequisite: Fine Arts 103, 105-106, or permission of the instructor.

400 Senior Seminar (3)

A seminar on a particular problem in the theory or nature of literature, language, or literary aesthetics. The topic will vary from year to year; presently under consideration are: Symbolism, Tragedy, Satire, Theory of Fiction. Open to senior English majors with permission of the department.

401 Studies and Problems (3)

Special studies, developed by visiting lecturers or individual department members, designed to supplement or to investigate more fully offerings in the department. Announcement of the particular subject is made prior to registration for the term in which offered. Offered at the discretion of the department and open to students with permission of the instructor.

404 Independent Study (1-3)

The student determines an area of reading and study or a specific project, in consultation with a department member who will guide the work and determine the hours of credit to be allowed. Such work allows the student to explore areas of his own interest, to supplement offerings in the department, or to read in courses not offered that particular year. Open to juniors and seniors with permission of the department.

FINE ARTS

STUDIO ART

101 Principles of Visual Art (3)

Studio course in drawing. Study of line, tone, form, texture, and space division in developing visual structure. Media charcoal, pencil, pen and ink, wash.

102 Principles of Visual Art (3)

Basic painting. Experiments develop understanding of color and of painting techniques. Media include collage, crayon, pastel, watercolor, and tempera.

203 Advanced Painting and Drawing (3)

Advanced painting and drawing studies, as well as three dimensional problems using cardboard, wood, wire, and other materials. Work from model and still life. Techniques of oil painting.

Prerequisites: Fine Arts 101 and Fine Arts 102, or acceptable previous training.

204 Oil Painting and Related Media (3)

Continuation of 203 with greater emphasis on expression and technique of individual student. Large scale oil paintings, additional study in use of polymer, acrylic, and related media.

Prerequisite: Fine Arts 203.

ART HISTORY

103 Art Appreciation: The Language and Composition of the Visual Arts

Including general discussions of the definition of "art," the criteria for judging quality in a work of art, and how the visual formal elements convey expressive content in art. Also a discussion of art as an expressive human language to be used by everyone in a creative approach to life.

105, 106 Art History Survey

A general survey of selected works of architecture, sculpture, painting, and the decorative arts from Pre-history to the Renaissance, and

Renaissance to mid-20th century. A study of these works with respect to their historical and cultural contexts. Art 105 prerequisite for 106.

201 Survey of American Art

Stressing major stylistic movements and artists in architecture, sculpture and painting from Colonial days to the present, with an attempt to analyze what is specifically American in American art. A study of particular works in the Charleston area will be included.

Prerequisite: Fine Arts 103, 105-106, or permission of the instructor.

205 Major Themes in Art

An analysis of the changing representation of selected themes and subjects—portraits, landscapes, religious images, etc.—throughout the history of art, with a consideration of the relation of these changes to changes in the economic status of the patrons, the philosophical thought, religious beliefs, and cultural environment of the times.

Prerequisite: Fine Arts 103, 105-106, or permission of the instructor.

312 Comparison of the Arts of the East and West

A study of stylistic similarities and differences between the arts of the Orient—especially India, China, and Japan—and the arts of the Western European world. Prerequisite: Art 105 or equivalent.

315 History of Modern Art

Concentrating on art since Manet, in order to discover what modern art really involves, how it differs from the art of the past, and what it expresses about our times. In particular how the developments in modern art are related to advances in science and technology.

Prerequisite: Fine Arts 103, 105-106, or permission of the instructor.

403 Theories of Art History

Emphasizing the general principles involved in the study of the History of Art, including discussions of the different approaches to art history, such as Wofflin's stylistic approach, Hauser's history approach, and Arnheim's psychology of visual perception approach.

MUSIC

104 Music Appreciation (3)

Introduction to the fundamental elements of musical art. Emphasis on what to listen for in music, rather than on historical data.

208 History of Music Survey from Renaissance to Modern (3)

Principal music styles of western civilization are discussed through an examination of works by outstanding composers of each historical period.

209 History of Music Survey from Renaissance to Modern (3)

A continuation of Fine Arts 208.

Prerequisite: Fine Arts 208.

210 Music of the Opera (3)

Study of a survey selection of operatic music from the western world.

DRAMA

221 Fundamentals of Dramatic Art (3)

Techniques of the theatre and principles of acting as applied to contemporary living.

222 Fundamentals of Dramatic Art (3)

A continuation of Fine Arts 221.

GEOLOGY**101 Physical Geology (4)**

A study of the composition and structure of the earth and of the processes which alter it. The nature and origin of the features of the crust. Lectures, three hours per week; laboratory, two hours per week.

NOTE: This course is prerequisite for all other courses in Geology.

102 Historical Geology (4)

The nature of the geological record. Problems of paleontology and stratigraphy. Lectures, three hours per week; laboratory, two hours per week.

Prerequisite: Geology 101.

103 Marine Geology

The topography and composition of the floor of the sea and the coasts. Geological processes at work in the sea. Lectures, three hours per week; laboratory, two hours per week.

Prerequisite: Geology 101.

HISTORY

The Major: 36 Semester Hours.

Students are encouraged to declare their major in the freshman year and required to do so before the end of the sophomore year. Every student choosing history as his major field of study is assigned a departmental advisor who helps him to define his area or period of concentration and to organize his sequence of courses accordingly. All students who elect the History Major are required to prepare a senior essay (in their junior and/or senior year).

Unless otherwise specified *all courses are open to all students.*

101 Early Modern Europe, 1500-1815 (3)

A survey of the history of Western Europe from the disintegration of the medieval unity to the end of the Napoleonic Period. Attention will be focused on the Protestant Reformation, the Catholic Revival, the Scientific Revolution, the emergence of the national state, the Enlightenment, and the French Revolution.

102 Europe Since 1815 (3)

A study of the relations between the major continental powers from the Congress of Vienna to recent times. The course will trace the fortunes of liberalism, nationalism and imperialism; the rise of totalitarianism; the causes and consequences of the World Wars; and the contemporary movement for economic unity.

Prerequisite: History 101.

- 201 History of the United States: The Colonial Period, 1607-1783 (3)**
The European background; the founding of the colonies; the growth of economic, social and political institutions; the roots of American intellectual development; and the coming of the Revolution.
- 202 History of the United States: The Young Republic, 1783-1865 (3)**
The problems of the Confederation; the formation of the Federal Union; the emergence of political parties; the westward movement; the transportation revolution; the growth of Southern sectionalism; and the approach of the irrepressible conflict.
- 213 History of England (3)**
A history of England from Roman Britain to 1603. Special attention will be given to the English concept of kingship, the growth of English law, relations of church and state, and the evolution of Parliament.
- 214 History of England (3)**
English history from 1603. Main topics for discussion will include the origins and growth of political parties, the waning power of the crown, the Industrial Revolution, and the creation of an Empire.
- 215 History of Canada (3)**
Canadian history from the French Regime to the present with emphasis on the Post-Confederation Period.
- 231 Ancient History: Greece (3)**
Greek civilization from its beginnings to Alexander the Great; emphasis on political, economic, social, and intellectual movements.
- 232 Ancient History: Rome (3)**
Roman history from its beginning until the decline of the Empire. Emphasis on Republican ideas, Imperial administration, Roman culture, and religious developments.
- 305 History of South Carolina (3)**
Prerequisite: six semester hours in history.
- 309 History of Latin America (3)**
The Iberian heritage; struggle for independence and stability; Pan-American relations; the rise of modern dictatorships in Latin America.
- 310 History of Modern France (3)**
French Revolution and Napoleon; autocracy, constitutionalism, and revolution; development of the French Empire; establishment of the Third Republic; World War I and World War II; Fourth Republic; De Gaulle and the Fifth Republic.
- 313 British Empire-Commonwealth (3)**
A survey of British imperial history from the fifteenth century to the present. This will include Canada, the West Indies, Australia, New Zealand, India, West Africa, East Africa, South Africa, and other areas of British control.
- 321 East European History and Politics, 1848-1945 (3)**
Impact of European revolutions of 1848; national awareness; World War I; Independent Eastern Europe. Little Entente. Nationalism and

consequences; industrialization and agricultural backwardness; society and culture. The German impact, World War II.

322 East European History and Politics after World War II (3)

Loss of independence. Communist rule in East Central Europe; changes in socio-economic structure; intrablock relations. From Stalinism to "liberalization."

323 History of the Far East (3)

A history of the civilization of the Far East from earliest times to the beginning of the twentieth century. Emphasis is placed upon the histories of China, India, and Japan with a secondary view of Southeast and Central Asia.

324 The Far East in World Affairs (3)

A survey of China, Japan, India, Pakistan and Southeast Asia. Emphasis will be on post-war development of the area including problems of population, economic underdevelopment, insurgency and internal politics.

325 Nineteenth Century Europe (3)

Congress of Vienna; Reaction and Revolution; Ascendant Nationalism; Struggle for Democracy and Social Reform; Imperial Conflicts and European Alliances; World War I.

326 Twentieth Century Europe (3)

1914 to present, including World War I; Peace Settlement; Depression; Post-war Communism, Fascism, Nazism, World War II; Internationalism; Neutralism; Cold war and problems in the Nuclear Age.

327 Russian Revolution and the New Regime (3)

Study of Russia on eve of Revolution followed by analysis of political, economic, social, and cultural developments in five periods: the year 1917, War-communism, New Economic Policy, the rise of Stalin, the "Great Purge."

328 Soviet Russia in the War and After (3)

Stalin and World War II. Losses and conquests; the monolithic Communist system and subsequent breaks in monolithism. The Post-Stalin era and the Sino-Soviet rift.

333 Diplomatic History of the United States, 1776-1898 (3)

The foundations of American foreign policy; tendencies toward isolation and expansion; disputes with foreign countries and their settlement; and the activities of American diplomatic representatives.

Prerequisite: Six semester hours in history.

334 Diplomatic History of the United States Since 1898 (3)

The emergence of America as a world power; the persistence of isolationist sentiment; the diplomacy of the World Wars; and the commitment to the Atlantic Community and other forms of collective security.

Prerequisite: Six semester hours in history.

335 The Bolshevik Revolution (3)

Marx and Engels as theorists of revolution; Russia before the October uprising; succeeding fifty years of Bolshevik rule, with subsequent contrasts of promise and reality.

336 East European Revolutions (3)

Political Development and effect of Russian occupation; Peace Treaties and coalition governments; Stalinization of Eastern Europe and 1956 as year of Revolt, with succeeding liberalization of regimes.

337 The Two World Wars (3)

A study of the origins of World War I and World War II. Special emphasis is laid on the problems of nationalism, democracy and industrialization. Socio-political changes between the wars.

341 History of the United States: Industrialism and Progressivism, 1865-1918 (3)

Southern Reconstruction; the exploitation of the national domain; the new immigration; the growth of urbanization; and the progressive response to industrialism. Offered alternate years.

Prerequisite: Six semester hours in history.

342 History of the United States: The Urban Nation Since 1918 (3)

American domestic affairs including the eclipse of progressivism, the consolidation of business, the social transformation of the 1920's, the Great Depression, and modern reformism from the New Deal to the Great Society. Offered alternate years.

Prerequisite: Six semester hours in history.

343 History of the Old South (3)

A study of the Ante-Bellum South with special emphasis upon social and economic aspects.

344 The American Civil War (3)

The cause of the war, problems of Confederate and Union Governments, military leadership and campaign, and results.

347 European Diplomacy and International Politics—1814-1914 (3)

Concert of Europe and its breakdown, wars of unification, development of systems of alliances and ententes, World War I. Seminar.

Prerequisite: Permission of instructor.

348 International Politics, Europe, 1919-1945 (3)

Peace Treaties, League of Nations, post-war diplomacy; significant developments in European international politics through World War II. Seminar.

Prerequisite: Permission of instructor.

349 History of the Renaissance and Reformation (3)

Offered alternate years.

353 Medieval History (3)

European social, political and economic institutions, cultural and intellectual phenomena from the fifth to the twelfth century.

354 Medieval History (3)

The social, political, religious and cultural developments in the light of the changing historical environment from the twelfth century to the Renaissance.

361 Ancient Near East (3)

A survey of ancient peoples and cultures of the Near East from earliest

historical times through the Persian Empire. This will include the Sumerians, Babylonians, Egyptians, Hittites, Assyrians, Hebrews, Phoenicians, Persians, and a number of minor groups.

400 Seminar (European) (3)

401 Seminar (American) (3)

An introduction to the sources, problems and methods that are characteristic of the study of modern history. Attention will be given to memoirs and diaries, private letters and state papers, and newspapers and periodicals. The general area of investigation and the specific topics for individual research will be determined during the first meeting of the class.

402 Colloquium (3)

Readings and discussions on the main trends in the history of Western civilization.

403 Reading and Independent Study in History (1-3)

Designed primarily for the student whose interest has been aroused in a particular topic or field and who wishes to pursue it unfettered by the requirements of a specific course. The amount of reading or the nature of the project will determine the credit to be assigned. Limited to majors in History.

404 Seminar in Ancient History (3)

A study of selected problems in ancient history.

MATHEMATICS

The Major: Mathematics 112, 211, 212, 303, 304, 311, 312; and nine additional semester hours in mathematics courses numbered 200 or higher. Total: 33 semester hours.

Physics 103-104 is strongly recommended for all mathematics majors.

102 Trigonometry (3)

A course emphasizing the circular functions and their analytic properties; graphs of the trigonometric functions, identities, trigonometric equations, inverse trigonometric functions; logarithms and the solution of triangles.

NOTE: Credit for Mathematics 102 may not be counted toward a major in Mathematics. A student who has completed Mathematics 111 or Mathematics 112 may not subsequently receive credit for Mathematics 102.

103, 104 Modern College Mathematics (3, 3)

A two semester course for the liberal arts student. Topics include: logic and sets, cardinal numbers, an introduction to an abstract mathematical system, probability; additional topics from number theory, linear programming, sequences to be discussed as time permits.

Prerequisite: Mathematics 103 is a prerequisite for Mathematics 104.

NOTE: A student who has completed Mathematics 303 may not subsequently receive credit for Mathematics 103.

111 Pre-Calculus Mathematics (4)

A course which emphasizes the function concept; graphs of functions, the algebra of functions, inverse functions; the elementary functions; inequalities.

Prerequisite: A minimum of two units of high school algebra and one unit of geometry is prerequisite for this course.

112 Calculus I (4)

An introduction to the concepts of integral and differential calculus of functions of one real variable.

Prerequisite: Mathematics 111 or its equivalent.

203 Linear Algebra (3)

Systems of linear equations, vector spaces, linear dependence, bases, dimension, linear mappings, matrices, determinants, quadratic forms.

Prerequisite: Mathematics 112

(This course was formerly numbered Mathematics 313.)

211 Calculus II (4)

Elementary transcendental functions, vector algebra, solid analytic geometry, and further development of techniques of differentiation and integration.

Prerequisite: Mathematics 112.

212 Calculus III (4)

Multiple integration and partial differentiation, approximations and series.

Prerequisite: Mathematics 211.

216 Introduction to Mathematical Statistics (3)

Probability models, random variables, important probability distributions, interval and point estimation, testing hypotheses.

Prerequisite: Mathematics 112.

303 Abstract Algebra (3)

An introduction to algebraic structures; elementary properties of groups, rings and fields; polynomials and matrices over a field; homomorphisms.

Prerequisite: Mathematics 112 or permission of instructor.

(This course was formerly numbered Mathematics 213.)

304 Abstract Algebra (3)

Continuation of Mathematics 303.

Prerequisite: Mathematics 303.

(This course was formerly numbered Mathematics 214.)

311 Advanced Calculus (3)

Proofs of theoretical results will be emphasized, beginning with properties of real number system which support theory of limits and continuity, and proceeding through vector analysis to theory of Riemann-Stieltjes integral.

Prerequisite: Mathematics 212.

312 Advanced Calculus (3)

Continuation of Mathematics 311.

Prerequisite: Mathematics 311.

- 320 History of Mathematics (3)**
 Number systems; historical problems of geometry; development of modern concepts in algebra, analytic geometry and the calculus.
 Prerequisite: 12 semester hours in Mathematics courses numbered 200 or higher.
- 323 Differential Equations (3)**
 Solution of ordinary differential equations, linear equations, systems of equations, solutions in power series, Picard's iteration method, applications.
 Prerequisite: Mathematics 212 or permission of instructor.
- 324 Vector Analysis (3)**
 An introduction to vector analysis, including vector algebra, differentiation of vectors, line and surface integrals, and vector spaces.
 Prerequisite: Mathematics 212 or Mathematics 323.
 (Mathematics 323, 324 was formerly called *Mathematics for Science Students*.)
- 411 Complex Variables (3)**
 Properties of complex numbers; analytic functions; elementary mappings; integration, power series, poles and residues; conformal mapping.
 Prerequisite: Mathematics 212.
- 415 Introduction to Point Set Topology (3)**
 An introduction to topology and real analysis covering sets and operations, real line, cardinal and ordinal arithmetic, examples of topological spaces with emphasis on elementary properties of metrics and metric spaces, measure on real line and integration.
 Prerequisite: Mathematics 312 or permission of instructor.
- 416 Introduction to Point Set Topology (3)**
 Continuation of Mathematics 415.
 Prerequisite: Mathematics 415.
- 417 Reading and Research (1-3)**
 Directed reading in mathematics. Open to qualified seniors with permission of Mathematics Department. A student may take this course for one or two semesters, earning 1-3 hours credit each semester. Credit value in each case will be determined by the type of problem.
- 418 Reading and Research (1-3)**
 Continuation of Mathematics 417.
 Prerequisite: Mathematics 417.
- 423 Numerical Analysis (3)**
 Finite difference calculus; roundoff noise; finite Fourier series; polynomial approximation; numerical solution of ordinary differential equations.
 Prerequisite: Mathematics 212 and 323.

MODERN LANGUAGES

FRENCH

The Major: Thirty semester hours in French.

- 01 Elementary French (3)**
A study of grammar, composition, and pronunciation. Parallel reading from easy authors. Open to students who do not present French for admission.
- 02 Elementary French (3)**
A continuation of French 01; a prerequisite.
- 101 Intermediate French (3)**
Emphasis on reading, pronunciation, and composition; a review of grammar. Open to students who have two admission units in French or who have passed French 01 and French 02.
- 102 Intermediate French (3)**
A continuation of French 101; a prerequisite.
- 201 Introduction to French Literature (3)**
A study of the principal writers of France, with selected readings.
Prerequisite: French 101 and French 102.
- 202 Introduction to French Literature (3)**
A continuation of French 201; a prerequisite.
- 305 Literature of the Nineteenth Century (3)**
Pre-Romanticism, Romanticism in prose and poetry, Realism and Naturalism, Symbolism. Intensive study of the works of Chateaubriand, Balzac, Baudelaire, Flaubert, Verlaine, Rimbaud, and Mallarmé. Offered in alternate years.
Prerequisite: French 201 and French 202.
- 306 Literature of the Nineteenth Century (3)**
A continuation of French 305; a prerequisite. Offered in alternate years.
- 307 Contemporary Literature (3)**
A brief review of Baudelaire, Rimbaud, and other forerunners of the modern movements in preparation for a study of Cubism, Dadaism, and Surrealism. Men and movements independent of these three schools will be studied also. Special attention to Proust, Gide, Rolland, Mauriac, Valéry, Breton, Eluard.
Prerequisite: French 201 and French 202.
- 308 Contemporary Literature (3)**
A continuation of French 307; a prerequisite.
- 311 French Conversation and Composition (3)**
Intensive practice in the written and spoken language. Assigned readings and compositions. The course will be conducted in French.
Prerequisite: French 201 and French 202, or permission of the instructor.
- 312 French Conversation and Composition (3)**
A continuation of French 311; a prerequisite.
- 401 Advanced French Conversation and Composition (3)**
A continuation of French 311-312 on a more advanced level, aimed at

students who plan to teach or go to graduate school.

Prerequisite: French 311-312, or permission of the instructor.

402 Advanced French Conversation and Composition (3)

A continuation of French 401, a prerequisite.

403 Directed Reading (1-3)

Advanced study of French literature through reading and reports. Program to be arranged by consultation with departmental chairman.

Literature Courses in English Translation

203 A Survey of French Literature from THE SONG OF ROLAND to the Works of Sartre and Camus (3)

The course is conducted in English and all parallel readings are in translation.

NOTE: This course may be taken as elective, or applied to the minimum degree requirement in Humanities. It may not be applied to the requirement in Language, or to the major requirements in French.

GERMAN

The Major: Thirty semester hours in German, including German 401 and German 402.

01 Elementary German (3)

Training in pronunciation, grammatical forms, and syntax, with main emphasis upon ability to read simple German texts and to understand simple spoken German. Open to students who do not present German for admission.

02 Elementary German (3)

A continuation of German 01; a prerequisite.

101 Intermediate German (3)

A review of grammar and syntax, combined with careful translation of texts of increasing difficulty. Open to students who have two admission units in German or who have passed German 01 and German 02.

102 Intermediate German (3)

A continuation of German 101; a prerequisite.

203 Advanced German (3)

Contemporary German literature. Reading of prose works of selected modern authors.

Prerequisite: German 101 and German 102.

204 Advanced German (3)

A continuation of German 203; a prerequisite.

207 Goethe's Faust. Erster Teil (3)

A detailed study of first part of Goethe's Faust, supplemented by lectures and outside reading.

Prerequisite: German 101 and German 102 and permission of instructor.

- 209 Lyric Poetry (3)**
Readings in German lyric poetry from Goethe to the present. Offered alternate years.
- 305 Introduction to the Classical Literature of the Eighteenth Century (3)**
Selections from the work of Lessing, Goethe, and Schiller, with special emphasis on their contributions to German drama.
Prerequisite: German 203 and 204.
- 306 Introduction to the Classical Literature of the Eighteenth Century (3)**
A continuation of German 305.
Prerequisite: German 305.
- 307 Nineteenth Century Literature (3)**
A survey of German literary developments from death of Goethe to close of the Nineteenth Century.
Prerequisite: German 203 and German 204.
- 308 Nineteenth Century Literature (3)**
A continuation of German 307.
Prerequisites: German 203, German 204, and German 307.
- 401 Masters of Modern German Literature (3)**
Reading and discussion of work of representative writers of the Twentieth Century. Offered alternate years.
Prerequisite: Twenty-four semester hours of German.
- 402 Masters of Modern German Literature (3)**
A continuation of German 401; a prerequisite. Offered alternate years.
- 404 Directed Study (1-3)**
A reading course, one hour a week, designed to give a general survey of development of German literature.

SPANISH

- 01 Elementary Spanish (3)**
Study of fundamental grammatical structures through intensive oral and written exercises. Emphasis on understanding, speaking and correct pronunciation. Introduction to reading. Open to students who do not present Spanish for admission.
- 02 Elementary Spanish (3)**
Continuation of 01, which is prerequisite.
- 101 Intermediate Spanish (3)**
Continued practice toward mastery of language structures through oral practice and composition. Readings of graded difficulty introduced.
Prerequisite: Spanish 01-02 or equivalent.
- 102 Intermediate Spanish (3)**
Continuation of Spanish 101, which is prerequisite.

201 Introduction to Spanish Literature (3)

Reading and discussion of principal masterpieces of Spanish Literature from beginnings of written literature through 18th century. Conducted mostly in Spanish.

Prerequisite: Spanish 101-102 or equivalent.

202 Introduction to Spanish Literature (3)

Continuation of Spanish 201, which is prerequisite. Study of Spanish literature of nineteenth and twentieth centuries.

301 Spanish Conversation and Composition (3)

Intensive practice in the spoken and written language. Class conducted in Spanish.

Prerequisite: Spanish 102, or permission of the instructor.

302 Spanish Conversation and Composition (3)

A continuation of Spanish 301.

Prerequisite: Spanish 301 or permission of the instructor.

311 Spanish American Literature (3)

Latin American literature from its beginnings to the generation of 1898.

Prerequisite: Spanish 201-202.

312 Contemporary Spanish American Literature (3)

A continuation of Spanish 311.

Prerequisite: Spanish 311 or permission of the instructor.

PHILOSOPHY

The Major: Thirty semester hours, which must include Philosophy 210, 215, and at least six semester hours from the following: Philosophy 220, 225, 230, 235.

101 Introduction to Philosophy (3)

An introduction to basic problems of philosophy based upon readings in the works of selected philosophers.

210 Ethics (3)

An introduction to some of the theories and proposals concerning the following: the moral nature of man, the origin and nature of moral values, the concept of good, the concepts of right and wrong, the justification of ethical beliefs.

215 General Logic (3)

An introduction to theories of the meaning and use of language and definition, to informal fallacies, to the theory of the syllogism, and to the basic operations of modern symbolic logic.

216 Symbolic Logic (3)

An intensive study designed to develop facility in utilizing the techniques of symbolic logic.

Prerequisite: Permission of instructor.

220 History of Ancient Philosophy (3)

An examination of the development of philosophic thought from Thales

to Plotinus, with special emphasis on the contributions of Socrates, Plato and Aristotle. Not open to students who have had Philosophy 201.

225 History of Medieval Philosophy (3)

An examination of some of the major sources and concerns of medieval philosophy from Augustine to William of Occam.

230 History of Modern Philosophy: Erasmus through Hume (3)

An examination of the rise of modern philosophy and some of its principal characteristics as exemplified in major philosophers from the close of the Middle Ages up to the philosophy of Kant. Special attention will be given to the problem of knowledge through a contrast of the rationalist and empiricist philosophies. Not open to students who have had Philosophy 202.

235 History of Modern Philosophy: Kant to the Present (3)

An examination of some of the major philosophers and important developments in modern philosophy from Immanuel Kant to the present.

255 Philosophy of Religion (3)

A critical investigation of some of the basic problems in religious philosophy: topics will include the nature of religious experience, the language of religious discourse, the faith-reason conflict, the major arguments for the existence of God, the variety of attributes ascribed to God, and the God-evil controversy.

265 Philosophy of Science (3)

A critical consideration of the methods and assumptions of modern science: topics will include probability, inductive inference, experimentation and others.

Prerequisite: Permission of instructor.

Prerequisite for work in courses numbered on the 300- to 400-level, three semester hours selected from the following: Philosophy 101, 220, 225, 230, 235.

305 Existential Philosophy (3)

A study of the philosophies of Kierkegaard, Nietzsche, Jaspers, Heidegger, Marcel, Sartre, and others.

306 Contemporary British Philosophy (3)

A study of the philosophies of Moore, Russell, Ayer, Wittgenstein, Ryle and others.

307 Contemporary Ethical Theory (3)

A study of recent work in ethical theory, with primary emphasis on the theories of Moore, Stevenson, Ayer, and Hare.

310 American Philosophy (3)

A critical treatment of selected leading American philosophers, with emphasis on major Pragmatists and Naturalists.

315 Political and Social Philosophy (3)

A critical study and analysis of selected major political and social theories.

320 Metaphysics (3)

A careful examination of selected problems of metaphysics, with some emphasis given to the methods and scope of metaphysics itself.

325 Epistemology (3)

An examination of the major perennial problems in the theory of knowledge, such as truth, other minds, memory, our knowledge of the external world, the **a priori**, and theories of perception.

450 Seminar in Philosophy: Perspectives (3)

An intensive examination of a selected philosophical perspective or tradition. Offered according to demand and interest of students at the discretion of the department, and open to students with permission of the instructor.

465 Seminar in Philosophy: Philosophers (3)

An intensive examination of the writings and developments of a selected philosopher. Offered according to demand and interest of students at the discretion of the department, and open to students with permission of the instructor.

480 Seminar in Philosophy: Problems (3)

An intensive examination of a selected problem in philosophy. Offered according to demand and interest of students at the discretion of the department, and open to students with permission of the instructor.

498 Independent Study (1-3)

Individually supervised readings and study of some philosophical work, problem or topic of the student's interest.

Prerequisite: Permission of the instructor.

499 Independent Study (1-3)

Individually supervised readings and study of some philosophical work, problem or topic of the student's interest.

Prerequisite: Permission of instructor.

PHYSICAL EDUCATION AND HEALTH

Courses in Physical Education may be taken for elective credit, but no more than eight semester hours may be applied toward a degree. From the following three groupings, no more than one group can be elected, with no more than two courses from within a group.

Group I—Physical Education 103, 104, or 113, 114.

Group II—Physical Education 105, 106, 107, 108, and 109.

Group III—Physical Education 110 and 111.

113 Team Sports (1)

A course designed to teach techniques and skills in basketball, field hockey, softball, and volleyball. Activity classes meet two hours each week.

114 Individual Sports (1)

A course designed to teach techniques and skills in individual sports that have carryover value for later life. Badminton, bowling, golf, table tennis, and tennis are included. Activity classes meet two hours each week.

103 Adapted Physical Education (1)

An adaptive course in Physical Education for students who do not meet the requirements of regular physical education classes because of a handicap.

104 Adapted Physical Education (1)

A continuation of Physical Education 103, a prerequisite.

105 Basketball and Volleyball (2)

The history, theory, techniques, practice of skills, and rules of basketball and volleyball. Activity classes meet two hours each week. Lectures, one hour each week.

106 Badminton and Tennis (2)

The history, theory, techniques, practice of skills, and rules of badminton and tennis. Activity classes meet two hours each week. Lectures, one hour each week.

107 Beginning Swimming (2)

A course designed to teach the non-swimmer how to swim. Emphasis on drown proofing and water safety. Four hours each week.

108 Advanced Swimming (2)

A course designed to improve swimming skills with emphasis on water safety, stroke mastery, lifesaving, and pool management and hygiene.

109 Aerobics (2)

The history, theory, and research that led to the development of a lifetime program for the individual student. Activity periods meet two hours each week. Lectures, one hour each week.

110 Fundamentals of Fitness, Physical Activity and Team Sports (2)

An introductory course dealing with the historical development and philosophy of fitness programs, intramurals, physical education, recreational activities and selected team sports. Required of students who plan to do additional work in Physical Education. Activity classes meet two hours each week. Lectures, one hour each week.

111 Fundamentals of Fitness, Physical Activity and Individual Sports (2)

A continuation of Physical Education 110 with emphasis on individual sports that have lifetime application.

Prerequisite: Physical Education 110.

201 Organization and Administration of Physical Education (3)

A course covering the history of physical education, its organization in elementary and high school, and the administrative duties and problems in this area. Lecture, two hours a week; supervised instruction, two hours a week. Enrollment limited to 12 students.

Prerequisite: Physical Education 101, 102.

202 Organization and Administration of Physical Education (3)

A continuation of Physical Education 201, a prerequisite.

216 Personal and Community Hygiene (3)

A study of principles and problems of personal, group, and community health as applied to everyday living. NOTE: This course is not subject to the limitation on semester hours or groupings.

301 Intramural Sports (3)

The significance and meaning of intramural sports in secondary schools and colleges in the United States with supervised work in planning, promoting, scheduling, organizing, and directing individual and team sports. Supervised work four hours each week. Lectures, one hour each week.

Prerequisite: Permission of the instructor.

302 Intramural Sports (3)

A continuation of Physical Education 301.

Prerequisite: Permission of the instructor.

PHYSICS

Two major programs are offered by the Physics Department, a pre-professional program leading to a B.S. degree, and a program oriented to the liberal arts leading to a B.A. degree.

Bachelor of Science. Required courses are Physics 103, 104, 201, 220, 305, 306, 307, 401, 403, and 412; Mathematics 323 and 324. This program does not represent any change from the present B.S. program.

Bachelor of Arts. Required courses are Physics 103, 104, 201, 305, 401, 403, and any additional three hours in Physics courses numbered 200 and higher; Mathematics 323 and 324. The only change in this program and the present B.A. program is the addition of the three hours in Physics courses numbered 200 and higher.

Chemistry 101-102 is strongly recommended for all Physics majors.

101-102 Introductory Physics (4, 4)

A general physics course intended for those students who plan to take only one physics course. The math does not go beyond algebra or trigonometry. The Material covered is similar to the Physics 103 and 104. With permission from the Physics Department a student may transfer to Physics 104 after completion of Physics 101. To take additional physics courses the same permission may be granted.

Prerequisite: Math 102 or equivalent.

103-104 General Physics (4-4)

Introduction to principles of physics for scientists. Subjects covered are: mechanics (vectors, linear and rotational motion, equilibrium, and gravitational fields); heat (mechanical and thermal properties of solids, liquids, and gases); light and sound (vibratory and wave motion, geometrical and physical optics, and spectra); electricity and

magnetism (A.C. and D.C. fields, currents and circuits). Lecture, three hours a week; laboratory, three hours a week. Prerequisite or corequisite: Mathematics 111, and 112.

201 Principles of Physics (4)

A reformulation of physical laws in depth. Topics covered include conservation laws; kinetic theory; rotational dynamics; Gauss' and Ampere's laws; electromagnetic theory of light; and quantum theory of radiation.

Prerequisite: Physics 103.

Prerequisite or corequisite: Physics 104.

203 Astronomy (4)

An introduction to astronomy. Subjects covered are: a brief history of astronomy; coordinates, time; the earth's structure and motion; instruments used in astronomy; the moon, eclipses; comets, meteors, interplanetary medium; stars (binary, variable); star clusters; interstellar matter; galaxies; cosmology. Lectures, three hours per week; laboratory, three hours per week.

Prerequisite: Mathematics 102 or equivalent.

204 Astronomy (4)

A continuation of Physics 203. Lectures, three hours per week; laboratory, three hours per week.

220 Introductory Electronics (4)

Basic principles of electronics and their application to instrumentation for students preparing for research in applied mathematics, medicine, biology, and chemistry. Lecture, three hours a week; laboratory, three hours a week.

Prerequisite: Physics 103-104.

222 Introductory Electronics (4)

A continuation of Physics 220. Lectures, three hours per week; laboratory, three hours per week.

305 Electricity and Magnetism (3)

An intermediate course in electricity and magnetism. Subjects to be covered will include electric field, magnetic field, electric current, Maxwell's equations, magnetohydrodynamics, and electric and magnetic quantum effects.

Prerequisite: Physics 201, or permission of instructor.

306 Physical Optics (3)

An intermediate course in physical optics with major emphasis on the wave properties of light. Subjects to be covered will include boundary conditions, thin films, interference, diffraction, absorption, scattering, and laser emission.

Prerequisite: Physics 201, or permission of instructor.

307 Thermodynamics (3)

Temperature, thermodynamic systems, work, first and second law of thermodynamics, heat transfer, ideal gases, reversible or irreversible processes, entropy, and possible inclusion of topics in kinetic theory of gases and statistical mechanics.

Prerequisites: Physics 201 and Math 323, 324.

401 Classical Mechanics (3)

Newtonian dynamics of particles and rigid bodies, relativistic mechanics, Lagrangian and Hamiltonian mechanics. Waves.

Prerequisites: Physics 201 and Math 232, 324.

402 Classical Mechanics (3)

A continuation of Physics 401.

403 Introductory Quantum Mechanics (3)

Wave-particle duality; the wave function; general principles of quantum mechanics; systems in one, two, and three dimensions; electron spin; perturbation theory; scattering theory; electro-magnetic relation; systems containing identical particles; applications.

Prerequisites: Physics 305 and Math 323, 324.

404 Introductory Quantum Mechanics (3)

A continuation of Physics 403.

412 Special Topics (1-3)

Offered both semesters for advanced students prepared to work independently. Hours to be arranged.

Prerequisite: consent of instructor.

POLITICAL SCIENCE

The Major: Thirty-six semester hours are required for a major in Political Science. Students are encouraged to take courses from the various fields of Political Science. Political Science 101 and 220 are required for all students majoring in Political Science. Students are encouraged to take courses in history, sociology, economics, philosophy and psychology.

Prerequisite Requirements: Political Science 101 is a prerequisite for all courses in the program.

101 American Government (3)

Formerly, Political Science 103. Structure, context, functions, and problems of American national government. This course, or the equivalent, is a prerequisite for all other political science courses.

104 State and Local Governments (3)

Institutions and behavior at state and local levels with emphasis on state legislatures, governors, judiciaries, state political parties, and urban politics.

220 Modern Foreign Governments (3)

Formerly, Political Science 320. Introduction to comparative government; political institutions and systems of government in Great Britain, Germany, the Soviet Union, and Southeast Asia.

222 Comparative Totalitarian Systems (3)

Issues to be treated include the meaning and essential characteristics of Totalitarianism, the role of the Party, and its leadership. Stages of

development, the role of ideology and instruments of power, Nazi Germany, Fascist Italy and Communist Russia and China will be given primary emphasis.

223 Urban Government and Politics (3)

Attention is focused upon the impact of an urban society upon the forms, structure, and functions of county and municipal governments; the political problems generated by metropolitan growth; the various approaches to the governing of the metropolis; the political process in urban communities; and upon community power structure and decision-making.

224 The Urban Community and Its Problems (3)

A survey of the basic problems of the urban community with emphasis on community power operations and conflict management.

230 American Foreign Policy (3)

A study of the institutions and elements involved in policy formulation; emphasis on the analysis of the major crises of the postwar period.

241 International Organization (3)

An analysis of the role and functions of international organizations in world politics; emphasis on relationships to foreign policies and the settlement of disputes.

261 International Relations (3)

Introductory survey of the nation-state system, its characteristic forms and the principle forces making for international conflict and adjustment. Nationalism, imperialism, economic relations, war, diplomacy and concepts of national interest are given special attention.

262 The United States and World Problems (3)

Factors influencing the position and policies of the United States in international society: United States policy in regard to international organizations and various geographic areas of the world.

301 Public Administration (3)

An analysis of the basic principles, functions, and practices of public administration; emphasis on decision-making and bureaucratic behavior.

302 Public Administration (3)

A continuation of Political Science 301, which is prerequisite.

305 Government and Business Relations (3)

This course is designed to emphasize the legal environment of business relations and the pluralistic nature of the economy of the United States. The principal federal regulations which apply to business and union activities are presented in order to provide the student with an understanding of the limitations of an administrator's authority in the field of public policy.

306 Legislative Process (3)

Organization, procedures, and powers of legislative bodies in America

and abroad, with emphasis on the United States Congress. Offered alternate years.

308 Constitutional Development (3)

Origin and development of the American Constitution and constitutional issues; relationship of English constitutional development to doctrines and principles of American constitutionalism. Offered alternate years.

319 Political Parties and Pressure Groups (3)

Political parties, organization and function; activities of pressure groups; relationships between economic power and politics. Offered alternate years.

320 Public Opinion and Propaganda (3)

An analysis of the techniques of propaganda and public opinion; emphasis on survey research methodology.

330 Far Eastern Affairs (3)

An analysis of political, social, and economic patterns and forces in the Far East in recent times. Emphasis will be placed on the impact of western imperialism and the breakup of colonial empires as well as contemporary problems. United States Security interests and involvements in the Far East will also be stressed.

340 Politics of Contemporary Southeast Asia (3)

A detailed study of the post World War II development of Southeast Asia including problems of populations, economic underdevelopment, insurgency, and internal politics.

352 Developing Countries: India and Pakistan (3)

A survey of the economic, social, and political problems and their impact on the political development of India and Pakistan.

366 American Political Thought (3)

Historical consideration of American political theory affecting legislative, judicial, and administrative processes. Offered alternate years.

402 Reading and Independent Study in Political Science (1-3)

Designed primarily for the student whose interest has been aroused in a particular topic or field and who wishes to pursue it unfettered by the requirements of a specific course. The amount of reading or the nature of the project will determine the credit to be assigned. Limited to majors in history and government. Permission of instructor required.

405 Political Theory (3)

A study of the theories concerning the purpose and functions of the state. It is concerned with the political theorists from Plato to Machiavelli. May be taken independently of 406.

406 Political Theory (3)

A continuation of 405. It is concerned with examining political theorists from Machiavelli to Marx. May be taken independently of 405.

407 Modern Ideologies (3)

A study of the major political doctrines of the present day, with primary emphasis upon Communism, Fascism, Authoritarianism, and the doctrines of the modern democratic state.

408 Soviet Affairs (3)

A study of the foreign policy of the U.S.S.R. with emphasis on the understanding and evaluation of Soviet capabilities and objectives in the Post World War II years to the present.

409 Government Finance (3)

The role of fiscal management and planning in the administrative process; budgetary theory and process; intergovernmental fiscal relations.

410 International Politics (3)

An analysis of the elements of national power and power relationships in world politics; emphasis on methodology for crisis analysis.

420 Civil Liberties (3)

A study of court's interpretation of the basic rights and freedoms of the individual; emphasis on development and application.

430 Comparative Politics (3)

An analysis and comparison of the political systems of developed and developing nations in terms of institutions, operations, and environmental factors. Emphasis on the development of models and common criteria for evaluation.

PSYCHOLOGY

The Major: Psychology 205, 206, 311, 312, and six additional courses in psychology, a total of thirty semester hours.

The student majoring in psychology is advised to consider including courses in biology, philosophy and sociology in his program of study.

205 General Psychology (3)

An introduction to the scientific study of behavior and a survey of general principles and significant experimental findings.

206 General Psychology (3)

A continuation of Psychology 205 with an introductory consideration of specific fields of psychological inquiry.

Prerequisite: Psychology 205.

307 Abnormal Psychology (3)

The psychological aspects of the behavior disorders with emphasis on the psychoneuroses and psychoses.

Prerequisite: Psychology 205 and 206.

308 Psychology of Personality (3)

The normal personality from the point of view of contemporary

psychology. A consideration of structure, dynamics, individual differences and methods of assessment.

Prerequisite: Six semester hours of psychology.

309 Developmental Psychology (3)

A study of the development of behavior during childhood and adolescence. Attention is given to unifying theoretical formulations.

Prerequisite: six semester hours in psychology.

310 Social Psychology (3)

A study of the principles of human interaction including a consideration of such topics as social learning, person perception, attitudes, prejudice, and analysis of small group behavior.

Prerequisite: Six semester hours of psychology.

311 Psychological Statistics (3)

Elementary statistical techniques and their application to the analysis and interpretation of psychological data.

Prerequisite: six semester hours of psychology.

312 Experimental Psychology (3)

Standard experiments in the areas of reaction time, sensation, perception, learning and emotion.

Prerequisite: six semester hours of psychology.

313 Conditioning and Learning (3)

A survey of the experimental study of human and animal learning with an introductory consideration of modern learning theory.

Prerequisite: six semester hours of psychology.

314 Advanced General Psychology (3)

A consideration of selected topics from various fields of psychology. Designed to be taken in the senior year.

Prerequisite: Psychology 305, 306, and three additional semester hours in psychology.

315 Tests and Measurements (3)

A consideration of the history, theory and techniques of psychological measurement. Attention is given to the measurement of intelligence, personality, interests, attitudes and aptitudes. Limited experience in test administration and interpretation is provided.

Prerequisite: six semester hours of psychology.

316 Systems of Psychology (3)

A study of contemporary psychological theory, including a consideration of Functionalism, Behaviorism, Gestalt Psychology and Psychoanalysis.

Prerequisite: six semester hours of psychology.

317 Motivation (3)

A critical analysis of the concept of motivation in historical perspective with an emphasis on contemporary research and theories.

Prerequisite: Six semester hours of psychology.

318 Comparative Psychology (3)

A comparison and explanation of the similarities and differences in the

behavior of different species of animals.

Prerequisite: Six semester hours of psychology.

319 Physiological Psychology (3)

A consideration of anatomical and physiological correlates of behavior.

Prerequisite: Six semester hours of psychology. Previous work in biology is highly recommended.

320 Theories of Personality (3)

A consideration of major contemporary theories of personality.

Prerequisite: Psychology 308.

SOCIOLOGY

The Major: Eight courses (24 semester hours) in sociology, including Research Methods in Sociology, Sociological Theory, and Seminar in Sociology.

The student wishing to major in sociology is encouraged to include courses in history, political science, economics, philosophy, and psychology in his program of study. A minor in one of these areas would be most appropriate.

201 Introductory Sociology (3)

An introduction to the study of the individual and society as mutually influencing systems.

202 Introductory Sociology (3)

Continuation of Sociology 201.

Prerequisite: Sociology 201 or permission of instructor.

303 Supervised Field Training (1)

Three hours a week of instruction and practical experience at Horizon House, an agency involved in the treatment of adolescent boys with behavioral problems and educational deficits. A description of the program may be obtained from the Registrar's Office. Open to qualified juniors and seniors with the permission of Mr. Hogan and of Mr. Ledford, the Director of Horizon House.

304 Race and Minority Group Relations (3)

A study of race and minority group relations in America, with particular emphasis on the causes and consequences of prejudice and discrimination.

Prerequisite: Sociology 201, 202, or permission of instructor.

305 Urban Sociology (3)

A study of the individual and social correlates and consequences of urbanization, principally as applied to the United States.

Prerequisite: Sociology 201, 202, or permission of instructor.

306 Social Stratification (3)

The causes and consequences of social inequality for free and open societies.

Prerequisite: Sociology 201, 202, or permission of instructor.

307 Crime and Delinquency (3)

A study of crime and delinquency in America with a consideration of theories of causation and methods of control.

Prerequisite: Sociology 201, 202.

308 Sociological Theory (3)

An historical overview of the major sociological theorists and theories from the 19th century to the present.

Prerequisite: Sociology 201, 202, or permission of instructor.

309 Sociology of the Arts (3)

An analysis of the sociological relationships between major art forms—principally film, theater, and music—and such phenomena as urbanization-industrialization, national character, or social change.

Prerequisite: Sociology 201, 202, or permission of instructor.

310 Social Problems (3)

A study of social problems in the United States, with emphasis placed on selected theoretical explanations of various forms of deviancy.

Prerequisite: Sociology 201, 202, or permission of instructor.

GENERAL INFORMATION

Buildings and Grounds

The campus and main buildings of the College of Charleston occupy a portion of the tract of land which, six years before the Revolutionary War, was appropriated by the General Assembly of South Carolina for the establishment of a college at Charles Town. The tract lay well to the north of the city at the time of the appropriation. The years which followed saw the city of Charleston grow around and beyond the college site so that today the campus lies almost in the center of the city. In recent years the College has reacquired and continues to acquire properties in the original eight-block area donated to the College by the city of Charleston in 1785.

The Main Building stands between College and St. Philip Streets. Construction of that section (now the center of the building) was begun in 1828; the portico, wings, and the Porter's Lodge were constructed in 1850. The wings of the Main Building, although almost completely destroyed in the earthquake of 1886, were restored according to the original plans within the same year, and an extension to the west of the building was opened in the fall of 1930. The clock on the pediment of the portico was presented to the College in 1954 by the Pi Kappa Phi fraternity on the fiftieth anniversary of the organization's founding at the College of Charleston.

The Edward E. Towell Library, built in 1855, stands on the College Street side of the campus, a short distance south of the Main Building. Modernization, necessary in recent years to meet the demands of a constantly expanding collection of volumes, has not changed the outward form of the building nor destroyed the panelled elegance of the original interior.

The College Athletic Center stands at the corner of George and Meeting Streets and repeats the neo-classical characteristics of earlier buildings.

The Craig Union is situated directly across George Street from the Main Building. Facilities of this building include student and faculty dining rooms, post office, students' lounge, snack bar, games room, and meeting room.

Other campus buildings, many of them designated of historic significance by the Historic Charleston Foundation, are used for student activities, faculty offices, and class facilities.

Dormitory Facilities

A dormitory for men accommodates 96 students, two to each room. Women students are housed in a spacious dormitory on College Street with facilities for 102 students. Charleston motifs have been incorporated into the architecture of the four-story building.

Additional dormitory space for men is available in the Athletic Center.

Dormitory rooms are assigned on the basis of date of deposit payment by returning students and on the date of receipt of application for admission for new students. Students may live off campus only while living with relatives, or by special permission.

All boarding students eat in the dining room on campus.

Textbooks

Text books are available from the College Book Store, which is located at the corner of College and Calhoun Streets.

The Library

The College Library combines the resources of a number of private collections donated to the College in its early years, with a steadily growing number of modern books and periodicals. The main collection, housed in the Library, is supplemented by smaller collections in separate facilities situated on the campus proper. In addition, materials relating to the oceanographical sciences are housed at the George D. Grice Marine Biological Laboratory at Fort Johnson. The contents of all collections, however, are listed in the central catalogue of the Library.

The Library serves as a depository of the United States government. Publications are regularly received from this source.

More than 200 periodicals and journals of learned societies are received annually.

At present, the Library is growing at the rate of 2,000 volumes a year, not including public documents and bound serial publications. This growth rate, coupled with the limited shelf space available in the present building has led to the construction of a new library scheduled for completion in the spring of 1972. The new three level building will incorporate the most modern library technology and concepts while keeping the traditional architectural unity of the campus intact. Designed to house over 100,000 volumes initially, the new library will again bring the various collections to one location.

The principal special collection is that of South Caroliniana, containing, in addition to standard works, a large collection of pamphlets, manuscripts, transcripts of other records, and a microfilm collection of Charleston newspapers.

A cooperative lending agreement among Charleston area college libraries has considerably strengthened the library resources of the College. In addition students and faculty members of the College have membership privileges in the Charleston Library Society. The collections of the Library Society are especially important in the fields of history, English, and American literature, and in South Caroliniana. The somewhat more specialized collections of the South Carolina Historical Association, the Charleston Museum, and the Carolina Art Association, are opened to advanced students, as the need arises. Inter-library loans and exchange courtesies are maintained with colleges and universities throughout the country.

The rules of the library are liberal and open stack privileges are observed by students beginning with the freshman year, making possible extensive individual study and research.

Fort Johnson

The College of Charleston operates the George D. Grice Marine Biological Laboratory, named in honor of the fourteenth President of the College, at Fort Johnson on James Island about ten miles by road from the campus. The property has had historic associations for over two centuries. Among the remains of ancient fortifications dating from the Revolutionary War is a brick powder Magazine and from a later period the foundations of a Martello tower.

From this site were fired those opening rounds of the bombardment on Fort Sumter which began the War Between the States. "Marshlands," a four-story plantation house of the Federal period, overlooking Charleston Harbor, is the residence of the Dean of the College.

Those courses related to the Marine Environment (see Courses of Instruction; Biology 209, 310, 314, 315, 320, 323, and 326) are taught at the laboratory.

Research space is used by the staff, advanced undergraduate students, biologists from the Marine Resources Division of the South Carolina Wildlife Resources Department, and biologists from the Federal Environmental Protection Agency. Students also serve as assistants in the courses and research programs.

Terms and Vacations

The academic year is divided into two semesters, each approximately eighteen weeks long; days are allotted at the end of each semester for examinations. Grading periods close at the mid-point and at the end of each semester. The specific Calendar for 1971-1972 is printed at the beginning of this Catalog.

*An Aerial View of the Grice Marine Biological Laboratory and
Historic Fort Johnson*

Summer and Evening Sessions

Summer and Evening Sessions are held at The College, for which separate bulletins are published. For further information contact the Office of Admissions.

The College of Charleston Foundation

The College of Charleston Foundation is established to provide support for students and faculty and activities of the College of Charleston for which State support cannot be provided. The College of Charleston Foundation is designed primarily to support scholarships, fellowships for faculty and other faculty enrichment programs as well as the intercollegiate athletic program of the College of Charleston. The College of Charleston Foundation is operated by a separate board of directors. It is an eleemosynary corporation whose purpose as outlined in its by-laws is for the establishment and implementation of a long range program of fund raising to assist in the expansion and improvements of the educational functions of the College of Charleston and to build an endowment fund to be expended annually by the directors for the exclusive benefit of the College of Charleston. The organization and its purposes are similar to those of any charitable eleemosynary corporation, except as limited by its charter.

Gifts and Bequests

Gifts to the College of Charleston Foundation fully qualify as tax deductible contributions. The College of Charleston Foundation welcomes gifts, immediate or deferred, when made without restrictions as to the use or when designated for any of a broad variety of purposes. Gifts may be of cash, securities, or any kind of real or personal property, depending on the conveniences and wishes of the donor. The College officers are prepared to confer at any time to make sure that both the donor's wishes and possible tax advantages are fully realized. Deferred gifts may be made through bequests or insurance as well as through a variety of trust agreements.

All inquiries should be addressed to the President, College of Charleston, 66 George Street, Charleston, South Carolina, 29401. The gifts and grants for both operational and capital development purposes are designed primarily for the improvement of the facilities and the educational opportunities of the students of the College of Charleston.

ADMINISTRATIVE REGULATIONS

Grades, Reports, and Quality Points

The regular session of the College is divided into two semesters of equal length. Courses of study which continue through the full session are year courses. Those constituting complete units of study within the limit of one semester are semester courses. Each semester closes with a period in which examinations are held for both the year and the semester courses.

At midsemester and at the end of each semester, the Registrar receives a grade for each of the courses in which a student is enrolled; these grades are reported to the student's parents or guardians.

Grading System

<i>Grade</i>		<i>Quality Points</i>
A	Superior	4.00
B+	Very Good	3.50
B	Good	3.00
C+	Fair	2.50
C	Acceptable	2.00
D	Barely Acceptable, Passing	1.00
F	Failure	0

Other grades which may be recorded for a course, as the situation warrants, are: I, Incomplete; W, Withdrawn; WF, Withdrawn Failing; WA, Dropped for excessive absence. An I grade signifies incomplete work and is to be interpreted as neither passing nor failing until the work in question has been completed. In case the work is not completed, the I grade reverts to F, Failure. In reporting a grade of I to the Registrar, the professor states the reason for the grade, indicates what conditions the student must meet to convert the grade to a passing mark, and sets the time within which the conditions must be met. In any event, if the conditions set for converting the grade are not met by July 1, following the close of the academic year, the I grade converts to F, Failure.

Credit cannot be granted for a course in which a grade of I, F, W, WF, or WA is reported, nor can quality points be earned for these grades. To receive credit for a course and earn quality points the student must receive a grade of D or higher.

At the two mid-semester reporting periods, an indeterminate grade of U may be reported by the professor as information indicating that while the work of the student to that point is not of passing quality, the student does have a fair chance to make a passing grade by the end of the semester. The student who receives this grade on a mid-semester report should consult immediately with the professor. Mid-semester grades do not become a part of the student's permanent record, and have no bearing on the ultimate determination of credit or quality points.

For semester courses the grade awarded stands as the final mark of a completed unit of study. If either semester of a year course is not passed, credit cannot be granted for the other semester of the course until the course failed has been repeated and passed. A student who receives a failing grade for the first semester of a year course may not continue in the course during the second semester. For the student who receives a grade of I for the first semester of a year course to continue in the second semester of the course he must have permission of the instructor.

The credits which a student earns by the satisfactory completion of the work in any course are measured in units called semester hours. A semester hour is the credit granted for work in a course meeting one hour a week throughout the semester. In other words, the number of semester hours for any course is equivalent to the number of hours a week the course meets during one semester. Two (in some instances, three) hours a week of required laboratory work have a credit value of one semester hour.

Grade-Point Ratio

The number of quality points earned for each course is computed by multiplying the semester-hour credit value of the course by the number of quality points assigned to the grade recorded for the course. For example, a grade of B received in a 3 semester-hour course would earn 9.00 quality points (3.00 quality points x 3 semester hours). At the completion of each semester, a grade-point ratio (G.P.R.) is computed for each student; at the completion of the academic year, a yearly grade-point ratio is determined. In computing the grade-point ratio for the semester, the total number of quality points earned for the semester is divided by the total number of semester hours of credit carried. The quotient is the grade-point ratio. For example, a student

who earns 36 quality points while carrying a course load of 15 semester hours would have a grade-point ratio of 2.40.

Minimum Scholastic Attainment

A student must successfully complete at least the following amount of academic work to continue in the College:

First College year: 6 semester hours each semester, and 12 semester hours for the year.

Each subsequent year: 9 semester hours each semester, and 18 semester hours for the year.

Academic Probation

Students who in the initial semester of their first College year pass as many as 3 semester hours of academic work, or who in the first semester of any subsequent year pass as many as 6 semester hours of academic work, may remain in the College on academic probation for the following semester. During the semester of academic probation the student must pass the requisite number of hours for that semester and pass as well the requisite number of semester hours for the year.

Dismissal for Academic Deficiency

Students who fail to achieve the minimum prescribed scholastic attainment are dismissed from the College for academic deficiency. They may apply for readmission only after the lapse of two semesters, the ten-week summer session for this purpose being considered a semester. A student who has twice been dismissed for academic deficiency is ineligible for readmission.

Credits earned at another institution during the two-semester period of ineligibility cannot be accepted toward a degree at the College of Charleston.

Dropped Courses

A student may withdraw from a course after the final day of late registration only with the approval of the Dean. If the student withdraws voluntarily from a course within the first six weeks of a semester, a grade of W is entered on his record, and the semester-hour value of the course is not included in the computation of semester hours carried for the semester. If the student withdraws after this time, the

grade of WF is recorded, and the semester-hour value of the course is counted in the computation of semester hours carried and in the determination of the semester grade-point ratio.

A student may not withdraw from a course and receive a grade of W after the first six weeks of the semester except with special permission of the Dean. This permission may be granted only when continued enrollment in the course would be detrimental to the student's health or has been made impossible by circumstances beyond the student's control.

In case of withdrawal from the College after the first six weeks of the semester, grades for the courses affected will be assigned in accordance with the regulations stated above.

Class Rank

Advancement to sophomore rank requires a credit of at least twenty semester hours and a grade point ratio of at least 1.00; to junior rank, a credit of at least sixty semester hours and a grade point ratio of at least 1.50; to senior rank, ninety semester hours and a grade point ratio of at least 1.85. No student may advance to junior rank until his major has been registered with the department concerned and with the Dean's Office.

Attendance

Students are expected to attend regularly all class and laboratory meetings of the courses in which they are enrolled, and will be expected to make up to the satisfaction of the professor in charge of the course any work missed by reason of absence. Absences are reported to the Dean's Office and become a part of the student's permanent record. An excessive number of absences in any one course may be considered sufficient cause for dropping the student from the course, with the consequent failing grade. The student who accumulates an excessive number of absences in several courses may be dropped from the rolls of the College. In such case, the student will be considered ineligible for re-enrollment until after the lapse of one semester and one summer session.

Leave of Absence

Leave of absence from classes will be granted only for extended illness, special professional examinations, and official College business.

The Honor System

All examinations at the College are conducted under the Honor System. The code which the Honor System sets up is the simple one of common honesty, and the student has complied with its major requirements when at the end of his examination paper he writes and signs, in good faith, a statement to the effect that he has neither given nor received assistance on the examination. For the system to be fair and effective every student must sign such a pledge.

The Honor System rests upon the confidence which both the faculty and students of the College have in the personal integrity of the individual student. The student's written pledge is accepted as true. Placed thus upon his honor, the student is free during the examination from espionage, unless he has laid himself open to suspicion. Members of the faculty supervise the examination primarily to give such assistance in understanding the examination as the student may legitimately receive from the professor.

Responsibility for maintaining the Honor System, which extends to any matter involving the personal honor of the student, falls in the first instance upon the student body. It is the duty of every student to report to the Student Honor Council any evidence of dishonesty which he may have observed during the examination. The Student Honor Council, in its turn, has the responsibility of investigating any charges preferred by one student against another. The Council is the medium of communication between the student body and the faculty in all matters pertaining to the Honor System.

Examinations

Absence from an examination will be excused by the Dean for illness of the student on the day of the examination, or for circumstances beyond the student's control that prevented his presence at the examination. In the instance of an absence for illness, the student must submit, with his own explanation, a physician's certificate to the Dean. An excused absence will entitle the student to

a make-up examination, to be held as soon as is convenient. An unexcused absence from an examination is recorded as a failure in the course for the semester, and the student can obtain credit for the course only by repeating it and achieving a passing grade. Re-examinations are not allowed.

Extra Courses

The normal course program for a candidate for a degree is five courses; that is, at least fifteen class hours a week. He may enroll for more than fifteen semester hours only if he has taken and passed at least fifteen hours during the preceding semester.

Four Year Honors

Four-year honors are awarded to students who have achieved a grade point ratio of 3.6. To be eligible for four-year honors and class rank, the student must have done all the work for the degree at the College of Charleston.

Yearly Class Honors

Class honors are awarded to students who have earned a grade point ratio of 3.6 for the year. To be eligible for yearly class honors the student must have been enrolled in the College of Charleston for a course load of at least fifteen semester hours each semester of the year. Transfer students who enter the College of Charleston for the second semester are consequently ineligible for yearly class honors during that year.

Faculty Honors List

At the close of each semester the Office of the Dean publishes the Faculty Honors List. Students are named to this list who were enrolled for a course load of not less than fourteen semester hours and who attained a grade point ratio of 3.6 (Highly Distinguished) or who attained a grade point ratio of 3.0 (Distinguished); in neither case may there be a grade lower than C or an I (Incomplete).

Conduct

The traditions of the College require from every student decorous, sober, and upright conduct as long as he remains a member of the College, whether he be within the precincts or not. College regulations are published in the Student

Handbook, with specific information concerning the procedures and process of their administration. It is the aim of the College to develop in the individual student the sense of personal responsibility for good order and a high standard of scholarship, and to secure in the largest measure his cooperation with the Faculty in the development of his own character.

STUDENT ACTIVITIES

Life at the College provides many opportunities for the student to develop his interest or talents outside his regular course of study. Students have the opportunity to participate in dramatics, music, debate and discussion, creative writing, and athletics. The student body indicates, by vote, the activities to which financial support will be given, specifying the amount to be allocated from the student activities fund. Fraternities, sororities, literary societies, and religious organizations, each selecting its membership, are self-sustaining. Members of the faculty appointed by the College administrative officers act as advisers to various groups; the programs, however, originate with the students and in general are not subject to faculty direction. A Student Activities Committee recommends to the Administration funds to be appropriated to various student organizations through the student activities fund.

Each student who enrolls at the College automatically becomes a member of the Student Government Association. The organization is based on mutual cooperation between students, faculty, and administration. The Student Government Association is made up of a Legislative Council in which elected class representatives participate, an executive board composed of student body officers, and a judicial branch. Only the representatives of these three branches are voting members of the Student Government. The Student Government promotes activities on campus and cooperates in building a better College.

Three student publications are edited and managed by the students. *The Comet* is the students' yearbook; it has appeared since 1912. *The Meteor* is the student newspaper, and the *Phoenix* is the College's literary magazine.

The Entertainment Committee is a body regulated and governed by the Student Government Association. It is composed of six elected representatives and is headed by the Student Director of Student Activities, a student body officer. The Committee works to provide student body dances and concerts featuring major popular artists.

Membership in the Dramatics Society is elective and participation in its productions is open to all students.

The oldest of the active literary societies at the College is

the Crestomathic, founded in 1848. Meetings are devoted to informal discussions of current topics or to the study of modern literature. Creative writing and the stimulation of student interest in the production of contributions to the College's publications are other activities of the societies.

The Natural History Society originated in the early 1900's. The group meets at least monthly, having guest speakers from the area, and make field trips a part of their regular program. Membership is open to all interested students.

Alpha Kappa Gamma is an honorary society of women students, recruiting its members from among those who have displayed high ability in one or more phases of College life—scholarship, athletics, campus and social leadership. New members are selected annually by the chapter. An academic average of B is required.

The Circle K Club, sponsored by the Charleston Kiwanis Club, is a service organization composed of men students who maintain a satisfactory scholastic record. A leadership organization, Circle K has as its prime objective the building of character through serving the student body and the College community. Membership is by invitation.

Juniors and seniors who lead their classes in scholarship and ability in student activities become eligible for election to Sigma Alpha Phi, the College honor society. Elections are held in the spring and only those who have met the most exacting requirements, under the high standards of the society, are invited to become members.

The Young Democrats and the College Republicans are organizations devoted to involvement in politics. Membership is open to interested students.

The Sailing Club is open to all members of the student body, with a limited amount of sailing instruction available to novices. Members compete against clubs from colleges in the Southeast. Over the years the club has sailed in the Sugar Bowl Regatta, the St. Petersburg collegiate regatta, and the Boston Dinghy Cup regatta.

The several denominational groups are composed of men and women students who find a community of interest in the churches of which they are members. Almost all of these societies are affiliates with regional or national organization of the same name, and each makes a contribution to the spiritual welfare of its members.

Six fraternities and sororities, primarily social in purpose while maintaining high ideals in scholarship, are active on the College of Charleston campus. The fraternities are Alpha Tau Omega, Kappa Sigma (formerly Pi Delta Kappa), and Pi Kappa Phi, the latter having been founded at the College of Charleston in 1904. The sororities are Chi Omega, Delta Delta Delta, and Phi Mu. Local government of the fraternities and sororities are effected, respectively, by the Men's Interfraternity Council and the Women's Panhellenic Council.

Prizes

High scholarship and exceptional achievement in extracurricular activities are traditionally important at the College. Prizes which symbolize such achievements are equally a part of the College tradition. Announcement of the recipients of cups, medals, and in some instances monies, is made at Commencement each year.

The Presidential Scholarships are awarded to the two rising sophomores, juniors, and seniors who, at the end of the academic year, have the highest grade point averages in their class, unless the recipient is the holder of a Foundation Scholarship.

The *Junior Medal*, a gift of the Alumni Association, is held in high regard. The recipient is a junior who has maintained, over the three-year period of his work at the College, the highest scholastic average in his class.

Three prizes are awarded annually for outstanding work in American history. The *William Moultrie Cup*, presented by the Rebecca Motte Chapter, D.A.R., gives recognition for excellence in the advanced courses of American history. The *American History Prize* is the gift of the American Federation of Women's Clubs to the woman student who has achieved highest honors in the general course of American history.

The *Edward E. Towell Chemistry Prize* is awarded annually in recognition of outstanding performance in the field of chemistry.

The *Bingham Medal for Oratory*, established by the late Robert W. Bingham of Louisville, Kentucky, and continued by his son, Barry Bingham, Esq., is awarded to the author of the best speech in the College oratorical contest, which is held in March of each year.

The *Graeser Memorial Fund*, established by the Alumni

Association in 1954 in honor of the late Clarence A. Graeser, Professor of Modern Languages of the College, provides an annual cash award to the student of the graduating class who, in the opinion of the modern language teachers at the College, deserves special recognition for work done in any one of the modern languages during a period of not less than three years.

The *C. Norwood Hastie Award*, established by the late C. Norwood Hastie, is a monetary award made annually to the man student of the senior class who has shown the most tact, consideration, and courtesy to his fellow students and who has made the most unselfish contribution to the student body and to the College of Charleston.

The *Alexander Chambliss Connelley Award*, established by the late Alexander Chambliss Connelley, is a cash award made annually to the woman student of the senior class who has made the most unselfish contribution to the student body and to the College of Charleston.

The *Wall Street Journal Student Achievement Award* is presented annually to an outstanding senior student in the Department of Business Administration and Economics.

ATHLETICS

The College of Charleston is a member of The National Association of Intercollegiate Athletics. Intercollegiate varsity teams compete in basketball, golf, sailing, and tennis.

Athletic grants in aid are offered in basketball, golf, and tennis.

The College encourages broad participation on the part of the student body.

Intramural Program

The aim of the College's intramural program is to reach every member of the student body. Sports offered have included badminton, basketball, bowling, cross country, free throws, softball, surfing, swimming, golf, table tennis, tennis, track, and volleyball. Various levels of competition are available in some sports depending upon the student's

ability. Students compete in intramural athletics at the class level and among fraternities, sororities, and independents.

Athletic Associations

Two athletic associations, one for men and one for women, promote athletic activities at the College. All students are members of the athletic associations. Student officers of the associations, as an executive committee, are responsible for business management, along with appointed representatives from each class and an advisor from the staff.

Facilities

The Athletic Center is situated at the corner of Meeting and George Streets. The main floor, with a seating capacity of 1,200, is used for basketball, volleyball, badminton, table tennis, and gymnastics. Stage facilities make possible the use of the center as an auditorium. An auxiliary gymnasium on the premises provides additional space with mats, rib stall bars, and weights. Locker rooms for men and women are situated on the ground floor of the main building.

THE ALUMNI ASSOCIATION

As early as 1834 an organization of Alumni of the College, known as the Society of Graduates, was in existence. While little is known of the group's activities, a more definite organization, bearing the name of the Society of the Alumni of the College of Charleston, appeared in 1847 and continued for about twenty-five years. The present Association has been in continuous operation since its inception June 13, 1888. "To manifest interest in and promote the welfare of the College of Charleston," as expressed in the Association's Constitution and By-Laws, is the purpose of the Alumni Association.

So that the purpose of manifesting interest in and promoting the welfare of the College of Charleston may be carried out, the Alumni Association engages in the following projects: assists in the publication of *The Newsletter*; contributions to the Athletic Association of the College; sponsorship of the annual Letterman's Meeting; the promotion of alumni meetings in other areas; entertainment annually for all out-of-town students, for the members of the faculty, and for the members of the Board of Trustees; the granting of awards for the Alumni Medal and the Graeser Memorial Award.

Membership in the Association now exceeds 1,500.

The regular meeting of the Alumni Association is held on the Saturday preceding Commencement. Formal business of the organization, including the election of officers, is transacted at this session. The meeting also provides the occasion for class reunions and for the induction of the new graduating class into the Association. An annual reception follows the meeting.

Considerable interest has been shown in holding class reunions. Any class interested in a reunion should contact the Director of Alumni Affairs well in advance of the date desired for a reunion.

Between meetings, the Alumni Association operates actively through its Executive Committee and the Director of Alumni Affairs. These administrators act as historiographers, collecting and recording the names, addresses, and occupations of all members of the organization. The Executive Committee holds at least eight regular meetings throughout the year.

Alumni Affairs correspondence should be addressed to the Secretary or to the Director of Alumni Affairs. The corporate name of the association is the College of Charleston Alumni Association, Inc. and all money contributed to the Association is tax deductible.

OFFICERS OF THE ASSOCIATION, 1971-1972

President	Louis E. Condon, '50
Vice President	Betty Smith Griffith, '56
Vice President	Bernard F. Puckhaber, '50
Treasurer	Michael L. Runey, '39
Executive Secretary	Anthony J. Meyer, '49

EXECUTIVE COMMITTEE: The President, Vice Presidents, Treasurer, Executive Secretary, ex officio, W. Lloyd Hamm, '58, immediate Past President, and Willard A. Silcox, '33, Director of Alumni Affairs, and the following Committeemen:

Mrs. Mary Elizabeth Furtwangler Ball, '41	C. Larry Smith, '64
Mrs. Jane McDonald Craver, '44	Mrs. Jean Aldous Thomas, '53
Noel P. Fuller, '70	Mrs. Ann Moore Webb, '39
J. Heyward Furman, '29	Robert L. Bilton, '55
Robert C. Heffron, Jr., '67	(Atlanta Area)
Miss Florence M. Hennessy, '43	Mrs. Helen McDowell Sanders, '36
Mrs. Joan Kilpatrick Moore, '57	(Columbia Area)
Willard A. Silcox, '33	Dr. Don A. Richardson, '50
Dr. Gordan B. Stine, '44	(Piedmont Area)

COMMITTEE FOR ALUMNI ASSISTANCE

The College of Charleston Committee has been established to assist the College's Faculty Committee on Admissions and to aid high school students who desire information about the college. Those interested are encouraged to contact any of the following alumni who serve as volunteers in the cities and states listed:

SOUTH CAROLINA

- Aiken—Dr. Edward L. Albenesius, 928 Calhoun Place, 29801
 —Dr. Eugene F. McManus, 127 Trafalgar Street, 29801
 Anderson—Mr. Hiram W. Sandlin, 2509 Edgewood Avenue, 29623
 Beaufort—Dr. Ben Herbert Keyserling, 1111 Bay Street, 29904
