2026 Researcher List

Last Name	First Name	Research Topic	Email
Aghamoosa	Stephanie	Aging, Alzheimer's disease, cognition, and brain health	fountast@musc.edu
Ahumada	Rachel	AI / machine learning / translational research	ahumada@musc.edu
Anderson	Haley	Cellular and molecular mechanisms of auditory aging	andersonhr@cofc.edu
Angel	Peggi	Imaging proteomics cellular to extracellular microenvironment	angelp@musc.edu
Baker	Paul	Women's health	bakerp@cofc.edu
Balasubramanian	Sundar	Breathing exercises for health & wellness	Balasubr@musc.edu
Barker	Tim	Organic synthesis	barkertj@cofc.edu
Barrett	Aaron	Computational fluid dynamics, mathematical biology	barretta1@cofc.edu
Baumann	Stacie	Mathematics: Graph Theory	baumannsm@cofc.edu
Becker	Howard	Alcohol addiction	beckerh@musc.edu
Bello	Mariel	Addiction, tobacco use, and health disparities	belloma@musc.edu
Brummer	Alex	Multi-omics modeling of liver cancer	brummerab@cofc.edu
Bruna	Sean	Healthcare systems engineering and patient safety	bruna@musc.edu
Cabaniss	Haley	Benthic Acoustic Mapping & Survey (BEAMS) research	cabanisshe@cofc.edu
Caraballo Galva	Leidy Diana	CAR-T cell engineering for cancer immunotherapy	carabale@musc.edu
Cash	Jasmine	Neuroscience, exercise science, rehabilitation	cashja@musc.edu
Cassidy	Douglas	Surgical simulation and medical education research	cassidyd@musc.edu
Clift	Cassandra	Cardiovascular biology, extracellular matrix, mass spectrometry, bioinformatics	cliftc@musc.edu
Darden	Tanya	SCDNR Marine Resources Research Institute	dardent@dnr.sc.gov
Davis	Leah	Marine biotechnology, bioengineering, biotoxin detection, synthetic biology, public health, biosensors, HAB biotoxins	leah.n.davis@noaa.gov
DeLucia	Michael	Mapping and tectonics	deluciams@cofc.edu
Dunlap	Kirsten	Skeletal muscle physiology	dunlapk1@cofc.edu
Flanigan	Meghan	Neuroscience	flanigme@musc.edu
Forconi	Marcello	Chemical catalysis: From decoding reactions to designing new enzymes	forconim@cofc.edu
Frazier	Meredith	Biochemistry and structural biology	fraziermn@cofc.edu
Gaur	Sonal	Neurodegenerative disease mechanisms in ALS and FTD	gaurs@musc.edu
Gottlieb	Sam	Neuroscience of alcohol use	gottlies@musc.edu
Gross	Christopher	AI applications in orthopedics	grossc@musc.edu

**Highlighted indicates the researcher will not be attending, but you may contact them directly*

2026 Researcher List

Guglietta	Silvia	Tumor immunology, neuroimmunology	gugliett@musc.edu
Hahn	Austin	Substance use prevention and mental health interventions	hahna@musc.edu
Han	Lu	Pancreatic cancer cellular and molecular biology	hanl@musc.edu
Hanna	George	Natural product drug discovery and environmental chemistry	hannag@musc.edu
Harold	Tony	Ecology of larval and juvenile stages of inshore marine fishes	harolda@cofc.edu
Hartman	Jessica	Liver/gut metabolism, toxicology, and metabolic disease	hartmanj@musc.edu
Herrera	Fernando	Plastic and reconstructive surgery	herreraf@musc.edu
Hill	William	Aging research (mechanisms of aging), both musculoskeletal and CNS	hillwi@musc.edu
Howley	Breege	Breast cancer biology	howley@musc.edu
Jaume	Steven	Earthquakes in South Carolina	jaumes@cofc.edu
Kwatra	Mohit	Molecular and cellular mechanisms of neurodegeneration: Drug discovery and translational therapeutics	kwatra@musc.edu
Lally	Brian	Radiation oncology clinical trials	lallyb@musc.edu
Langdon	Casey	Pediatric cancers, cancer biology, cancer therapeutic development	langdonc@musc.edu
Li	Jiaxing	Neuroscience	lijiax@musc.edu
Longoria	Jennifer	Cognitive outcomes in children with sickle cell disease	longoriaj@musc.edu
Mallah	Khalil	Neuroimmune responses to Traumatic Brain Injury	mallah@musc.edu
Mehta	Shub	Pancreatic cancer immunotherapy and drug discovery	mehtash@musc.edu
Mullaugh	Kate	Environmental chemistry	mullaughkm@cofc.edu
Munera	Jorge	Colon organoids and inflammatory bowel disease	munera@musc.edu
Noble	Kenyaria	Preclinical drug development	noble@musc.edu
Oprisan	Sorinel	Computational neuroscience	oprisans@cofc.edu
Oprisan	Ana	Soft matter fluids and image processing	oprisana@cofc.edu
Ouyang	Jian	Understanding and targeting genomic instability in cancer cells	ouyangj@musc.edu
Paczesny	Sophie	Immunology, cancer, leukemia	paczesns@musc.edu
Plante	Craig	Microbial ecology	plantec@cofc.edu
Podolsky	Bob	Environmental and functional biology of marine invertebrates	podolskyr@cofc.edu
Renaud	Ludivine	Lung fibrosis and tissue regeneration	renaudl@musc.edu
Rhodes	Moshe	Extremophiles in the aerobiome	rhodesme@cofc.edu
Rinker	Jen	Stress, alcohol use disorder, and brain circuitry	rinker@musc.edu
Sahin	Ozgur	Cancer drug discovery and systems biology	sahin@musc.edu

**Highlighted indicates the researcher will not be attending, but you may contact them directly*

2026 Researcher List

Sato	Takashi	Neuroscience	satot@musc.edu
Setayesh	Sara	Cancer and nanoparticles	setayeshs@cofc.edu
Shi	Zengdun	Liver fibrosis and hepatic cell activation	shize@musc.edu
Slan	Stephanie	Gut-brain axis and gastrointestinal neuromodulation	slans@musc.edu
Song	Xiao	Glioma biology and tumor immunology	songx@musc.edu
Tang	Fulei	CRISPR gene editing	fulei@musc.edu
Trabelsi	Mouna	Age-related macular degeneration and retinal aging	trabelsi@musc.edu
Trehan	Natalia	Therapeutic injectables	trehan@musc.edu
Van Beusecum	Justin	Cardiovascular and renal complications of lupus and hypertension	vanbeuse@musc.edu
Vereen	Karelys	Alcohol effects on brain function and behavior	montanek@musc.edu
Vulava	Vijay	Environmental pollution	vulavav@cofc.edu
Wang	Shixuan	Bayesian information borrowing in clinical trials, causal inference, synthetic control in policy evaluation, Bayesian optimization, imaging analysis	wangs1@cofc.edu
Wang	Gavin	Alzheimer's disease	wangy@musc.edu
Wang	Jen	Cancer immunotherapy	wangha@musc.edu
Warfel	Noel	Cancer biology	warfeln@musc.edu
Welch	Allison	Amphibian ecology	welcha@cofc.edu
Wesley Hitt	George	CubeSat small satellite mission design	hittw@cofc.edu
Wilkerson	Brent	Hearing loss, inner ear development	wilkersb@musc.edu
Wu	Yongren	Musculoskeletal biology and tissue repair	wuy@musc.edu
Yilmaz	Ozlem	Host microbe interaction, microbial colonization, neurodegenerative disease and bacteria	yilmaz@musc.edu
Zamudio	Paula	Cerebellum and alcohol consumption	zamudiob@musc.edu
Zhang	Hailong	The role of enteric neurons in infection, inflammation, cancer, and social behaviors	zhangha@musc.edu; cuim@musc.edu
