

PSYCHOLOGY AND SPANISH DOUBLE MAJOR

Double majoring in Spanish and psychology can be a powerful combination, offering both cultural competency and psychological insight—two skills highly valued in many fields. **Broader Career Opportunities** - this combination is particularly useful in fields like bilingual clinical psychology, social work, counseling, and education, where understanding both language and human behavior is crucial. **Higher Marketability** - Employers appreciate candidates who can communicate effectively across cultures and understand human behavior, making you stand out in job applications
